CORPORATE OVERVIEW

Metrica was established in 1984 to provide government and private industry with an array of support activities, consultant services, management analyses and studies, international logistics, and computer hardware and application software products. Metrica's staff has over twenty years of experience in managing and conducting contract research and has maintained a solid reputation for capable management of large-scale projects as well as for high-quality research and development.

Metrica offers a highly qualified staff that includes such diverse disciplines as social scientists, economists, statisticians, mathematicians, computer scientists, management information systems analysts, psychologists and human factors specialists, physicians, project and program evaluators, agriculturists, translators, logisticians, and engineers. Because of its many affiliations with major universities, Metrica has access to a substantial pool of experts and consultants in many professional fields.

Metrica can provide you with quick and viable solutions to a broad range of customer computing needs--from individual components to system design, hardware sales, on-site or off-site system integration, installations, same or next-day warranty and maintenance options. Our product lines include many of the top manufacturers in the computer industry. Metrica also provides facilities, data, environmental analytical laboratory operations, hardware/software maintenance, and professional consulting with additional capabilities through our TRACLabs office in automation and robotics.

Metrica is represented through a network of 20 business partners internationally and can provide a comprehensive range of services to the personnel of American organizations and expatriates, including housing, professional support personnel, facilities, computer and office equipment, as well as other in-country support and logistical services.

The U.S. Air Force, U.S. Army, U.S. Navy, U.S. Marine Corps, General Services Administration, Department of the Treasury, NASA, Booz-Allen Hamilton, the Agency for International Development, Lockheed, and the Drug Enforcement Agency are just a few of Metrica's satisfied customers.
