Enhancing Personal Communications

"That's one small step for man, one giant leap for mankind." These historic first words from the moon were spoken through a Plantronics headset. In fact, Plantronics invented the first lightweight headset back in 1961, and over the past 40 years has set the industry standard for sound quality, comfort and reliability.

Now you can experience this expertise every time you use a Plantronics headset. Plantronics offers a complete line of best-in-class products for every need, with the light weight, attractive styling, quality and durability that sets our headsets apart.

As we move into a wireless, digital future, we know our customers are looking for comfort, style, mobility and freedom. Plantronics is committed to delivering state-of-the-art technologies and industry-leading innovation that simply make communicating easier.

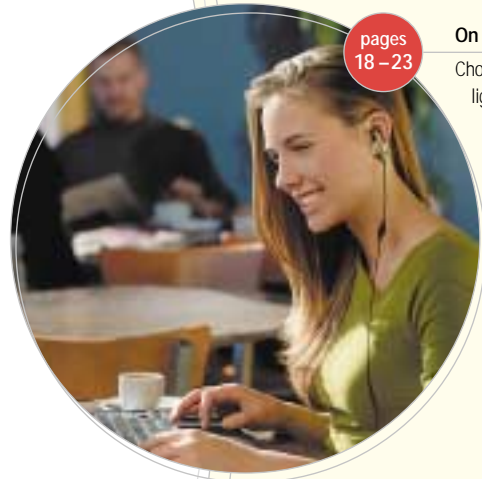

pages
4 – 17

In the office

The superior sound quality and ergonomic designs of our professional headsets free your hands for other tasks as you enjoy comfortable, natural-sounding conversations.

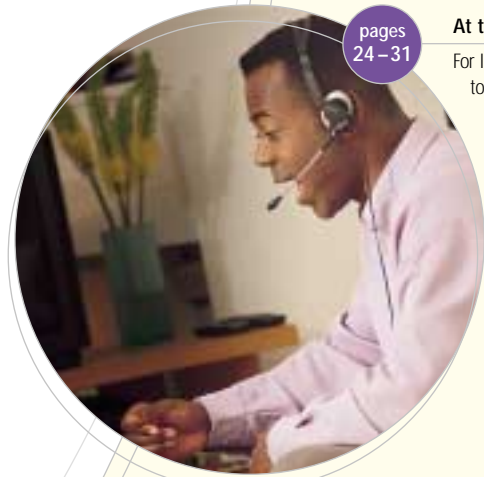

pages
18 – 23

On the go

Choose one of Plantronics lightweight mobile headsets for crystal clear calls and hands-free convenience you can take on the road, to the office, or around the house—anywhere you need to stay in touch.

pages
24 – 31

At the computer

For Internet telephony, listening to music, playing multimedia games, speech recognition and voice applications—choose one of Plantronics full range of innovative PC headsets.

Office & Call Center Solutions

As the world leader in communications headsets, Plantronics continues to introduce innovative products. Our latest include the DuoPro® headset family, now available in a behind-the-head wearing style, and the new CT12 Cordless Headset Telephone

for hands-free convenience and mobility around the home or office.

Best-in-class headsets

Plantronics offers the widest choice of headsets for call centers, offices and home offices. Choose between over-the-head, over-the-ear, behind-the-head or versatile convertible styles, with either voice tube or noise-canceling microphones. Backed by Plantronics legendary service and support, they all deliver superior sound quality, all-day comfort and rugged reliability.

Top-of-the-line amplifiers and systems

Plantronics amplifiers and adapters let you connect our headsets to your telephone. They add the convenience of volume, mute and tone controls, in-use indicators, headset stands, and more. For small offices and home offices, choose one of our convenient headset/amplifier systems or dedicated headset telephones.

Advanced cordless solutions

Our cordless products let you enjoy the hands-free convenience of a Plantronics headset, together with the freedom to move around your workspace untethered to your desk.

Mobile & Cordless Headsets

At home, in the car, whenever you're on the go

Experience the hands-free comfort and convenience of Plantronics headsets for mobile phones. Choose from a variety of colors and styles—including our new MX100 with unique Flex Grip™ design—to find the perfect fit for your busy and active life.

The leader in headset technology

Plantronics offers a comprehensive and affordable line of headsets for cellular and cordless telephones featuring advanced microphone technology for crystal clear calls.

They're compatible with nearly all phones having a 2.5mm headset jack. Nokia® specific models plug directly

into Nokia phones without an adapter.

A hands-on approach to driver safety

There are plenty of reasons for using a headset while driving; including the ability to keep both hands free to operate your vehicle. Now add to that the increased comfort, fit and superior sound quality of a Plantronics headset. You'll wonder how you ever drove without one.

Be more than mobile. Be free!

Plantronics new wireless Bluetooth M1000 headset gives you the freedom to express yourself—with no wires, no leads, no strings attached! You can connect with any mobile phone, PDA or laptop that supports the Bluetooth headset or hands-free profile—seamlessly and invisibly.
