Charlie Pierce
President
LTC Training Center
LRC Electronics

About the Author

Charlie Pierce is President and Founder of LTC Training Center, the nation's only company dedicated to training CCTV exclusively and LRC Electronics Company, the nation's largest independent industrial CCTV repair center. Charlie is one of the country's leading authorities on industrial CCTV Systems and their inter workings. Teaching the KISS method of CCTV, he is well known for his ability to break the most complicated systems into plain English understanding. He has been one of the highest rated speakers at prominent industrial security trade shows around the country for the past eight years.

Having been in the industry for 25 years, he has worked in all aspects of CCTV ranging from design, to sales, to installation, to field service, to bench repair, to consultant. He is well versed in CCTV and is well known and respected by the top manufacturers of the industry.

Charlie has taught CCTV workshops and presented seminars at all the International Security Conference shows coast to coast for the past seven years. He has spoken at the ASIS national shows, including the Physical Security Workshops for ten years. A well known author, Charlie has several monthly columns and articles in security trade magazines on CCTV around the world.

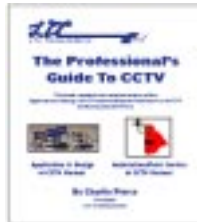

Interactive Support CD-ROM

This support CD includes the entire "Professional's Guide to CCTV" manual in electronic format, various video excerpts from our "Instructional Video Series with Certification", and various electronic calculators to help customers calculate: the Pythagorus Theorem for distance, what lens to use when changing camera format, metric to standard, foot candles to lux and many more. This CD can be loaded directly to your hard-drive for access by all within your network. For a small fee, semiannual updates will be available. Update will include additional calculators, video clips, written article, quizzes, and audio seminars.

About Our Manuals

The manuals are updated annually with supplements available each year to keep your library current. LTC Training Center is the only CCTV training company that is offering this valuable service. As the original training source for CCTV, LTC Training Center will help you further your professional career with our satisfaction guaranteed training materials. The manuals are also available in Spanish.

The Professional's Guide To CCTV

Over 650 Pages! Combines the complete works of the Installation/Field Service and Application & Design of CCTV. This book is a must for every dealer, designer and end user that has anything at all to do with CCTV systems. Learn everything that you would need to know to apply the KISS method of CCTV. The most complete, easy to read book of it's kind on the market today. This book contains a wealth of information that will be valuable for years to come.

Application & Design of CCTV

Over 600 pages of up-to-date information explaining the basic design and inter workings of CCTV systems and equipment. Starting with simple theory and teaching the basics of cameras, lenses, cables, monitors, system integration and site assessment. This manual contains everything needed to obtain a strong grasp of the proper way to design systems for one to one hundred cameras. Broken into individual sections and written in plain English language, this manual allows easy reference to most questions and answers for the CCTV systems designer.

CCTV Installation/Field Service

Over 450 pages explaining the basic installation and field troubleshooting techniques of video systems. Referred to as the "field person's CCTV bible", this manual will help the new and the experienced installer/field service person solve 95% of new and/or existing problems. Knowing what to expect before it happens avoids costly job site call backs and long term problems. This manual is written in plain language that cuts to the core of the subject quickly and efficiently.

100% Satisfaction Guaranteed!
All of the training materials from LTC Training Center come with a full money back guarantee.

About Our Certification Programs

The certification programs are part of the most comprehensive CCTV training materials ever available to the CCTV industry. Approved for CEU points by state and national associations in the USA and in use by over 50 countries worldwide. There are no other ways to train your personnel for CCTV Installation and Sales easier and more cost effective than with our programs. Each program comes complete with an 8 hour VHS instructional series, corresponding manual and a follow up comprehensive test. LTC Training Center will grade each test upon completion and provide a wooden plaque and certificate for a passing grade of 75% or higher.

Application & Design of CCTV

Sales people, end users, dealers, and consultants will find this video set invaluable in designing CCTV systems in today's complex market. You'll receive the Application & Design of CCTV manual, a series of thirteen VHS videos and a comprehensive follow up test
