COMPANY BACKGROUND

Frustration, a lack of time, and the need to produce more in a competitive bidding environment are just a few of the key factors that led to the development of Hawaii Planz Administrators.

The problem as most of you know in the business is that picking up these plans for government jobs is a very time consuming proposition.

There must be a better way!

With the business concept in hand, the three entrepreneurs began looking at delivery methods for their services.

They collaborated and created the web site - HawaiiPlanz.com.

Once the company was formed they opened their office in the Manoa Innovation Center with the assistance of the High Technology Development Corporation (HTDC).
