Limited Warranty

Kyocera Mita America, Inc. warrants its plain paper copier(s) against any defects in material and workmanship for a period of ninety (90) days from the date of installation by Kyocera Mita America or an Authorized Kyocera Mita Dealer except for lamps and photo conductor which are limited to proper performance at the time of installation. In the event this product is found to be defective within the warranty period, Kyocera Mita's only obligation and your exclusive remedy shall be replacement of any defective parts. These warranties would be void if the equipment is not operated properly or misused. Drum warranties are limited to electrical functioning of the drum and are void if misused or physically damaged by the operator.

Maintenance

Staples and paper are not included in Maintenance. For Maintenance beyond a 25-mile radius, please contact your Kyocera Mita National/Government Account Regional Manager. Maintenance without supplies, as well as other maintenance plans, are available on an open market basis.

Minimum Order Limit

The minimum acceptable order for shipment to one location is \$100.00.

Geographic Coverage (Delivery Area)

The contract delivery area is defined as the forty-eight (48) contiguous states, District of Columbia, Alaska, and Hawaii.

Government Commercial Credit Card

Accepted.

For Lease

Per "remit to address"
on invoice

TIN: 95-2819506
Business Size: Large

If a copy of the invoice cannot accompany the payment, the remittance information should contain the invoice number, date of the invoice, amount, and an explanation if the payment is not exactly as shown on the invoice.

10. Limited Warranty

Kyocera Mita America, Inc. warrants its plain paper copier(s) against any defects in material and workmanship for a period of ninety (90) days from the date of installation by an Authorized Kyocera Mita Dealer except for lamps and photo conductor is limited to proper performance at the time of installation. In the event this product is found to be defective within the warranty period, Kyocera Mita's only obligation and your exclusive remedy shall be replacement of any defective parts.

These warranties would be void if the equipment is not operated properly or misused. Drum warranties are limited to electrical functioning of the drum and are void if misused or physically damaged by the operator.

11. Export Packing Charges

Commercial and Military packaging on all models at standard commercial rates are on an Open Market basis.

RENTAL TERMS AND CONDITIONS

1. Copiers To Be Rented

Customer agrees to rent from Kyocera Mita copiers and accessories according to the terms of this price schedule. A written order shall be the only basis for rental in accordance with these terms and conditions.

2. Rental (For each copier installed)

Customer agrees to pay to Kyocera Mita the rental Monthly Minimum Rental Charge(s) and Excess Meter Charge(s) set forth herein. There are no installation or removal charges to the government for the equipment (copiers and accessories) listed herein.

3. Rental Term

All equipment rented under this price schedule will be for the rental term indicated on the government's Purchase Order. The effective date of said rental will commence on the date of installation of subject equipment. The rental terms available under this contract are for the following contract periods:

One (1) year	Current fiscal year
Two (2) year	Current fiscal year and the following fiscal year
Three (3) year	Current fiscal year and the following two (2) fiscal years

Kyocera Mita will bill and the customer agrees to pay to Kyocera Mita the Monthly Minimum Rental Charge(s), monthly in the arrears. Rental charges will be computed on the basis of thirty (30) days a month. Charges for fractional parts of a calendar month will be computed at the rate of 1/30th of the monthly charge for each day the equipment is installed ready for use by the customer.

Excess meter charges will be based on meter readings and billed monthly in the arrears.

Equipment rental for less than three (3) months will be installed only if Kyocera Mita receives written confirmation that it is the expressed intent of the Government agency to issue a renewal purchase order for the following fiscal period.

4. Payment

Payments must be made payable and sent directly to:

Kyocera Mita America, Inc.
Attn.: National Accounts Department
225 Sand Road
PO Box 40008
Fairfield, NJ 07004-0008

5. Purchase Option

(1) Rental charges which have been paid, or rental charges accrued but unpaid, may be applied as partial payment towards the purchase price of equipment rented under SIN 51-55. The purchase price shall be the Federal Supply Schedule Rental Option to Purchase Base Price prevailing at either the time of the initial rental or purchase option conversion, whichever price is lower. The percentage of rental accruals to be applied towards the purchase price shall be that in effect at the time of the initial rental or purchase option conversion, whichever is higher.

The amount of rental payments to be applied by Kyocera Mita towards the Rental Option to Purchase Base Price as a credit, and how the option may be exercised is as follows:

At the end of:	Rental Equity:
1 - 4 Months	100% of monthly base rental
5 - 8 Months	75% of monthly base rental
9 - 12 Months	65% of monthly base rental
13+ Months	50% of monthly base rental

The maximum rental equity is 75% of the purchase price of the equipment, exclusive of maintenance.

The customer understands that the equipment may be new or remanufactured.

(2) All equipment purchased by the Government under a rental purchase option conversion will receive a ninety-(90) day warranty. This warranty shall include all necessary adjustments and replacement of broken or defective parts not caused by negligence or misuse by the Government during the warranty period without charge provided that no repairs, alterations, or additions have been made to the equipment, except by Kyocera Mita's authorized representative.

6. Warranty

Kyocera Mita warrants that the copiers are free from defect and workmanship, and Kyocera Mita will repair or replace, at its option, copiers found to be defective. KYOCERA MITA MAKES NO OTHER WARRANTIES AND ALL OTHER IMPLIED OR STATUTORY CONDITIONS AND WARRANTIES (INCLUDING WARRANTIES OF MERCHANTABILITY AND FITNESS FOR A PARTICULAR PURPOSE) ARE HEREBY WAIVED BY THE CUSTOMER. Kyocera Mita shall not be liable for any special, incidental or consequential loss or damage arising out of the use of, delay, in repair of, or inability to use, any copier.

7. Title

Title of copiers remains at all times with Kyocera Mita, and the customer agrees that Kyocera Mita's label affixed to the copier and evidencing its ownership will not be removed, covered or altered.

8. Care and Operation of Copier

Customer agrees to use reasonable care in the use and handling of the copier and agrees to use only consumable supplies in the copier that do not damage it. All maintenance and service work which the copier requires because of customer's failure to use reasonable care in its handling or operation or caused by customer's use of non-Kyocera Mita brand consumable supplies will be provided by Kyocera Mita or an authorized Kyocera Mita Servicing Dealer and paid for by the customer on an OPEN MARKET BASIS.

9. Notification of Intent to Cancel

Customer agrees to provide in writing to Kyocera Mita, no less than thirty (30) days prior to the proposed removal date, and written notification of intent to terminate the rental of Kyocera Mita equipment.

If an agency fulfills the requirement of a rental agreement then no termination charges will be applied. No termination charges will apply if an annual (1-year) plan is terminated at any time during the year, upon thirty- (30) days written notice to Kyocera Mita.

If the Government terminates an order prior to the expiration of the rental agreement (other than one (1) year agreement) the government shall be liable for any difference in the rental rate. Example: If an agency issues an order based on a two (2) year rental rate, but terminates the rental after six (6) months, the agency owes the difference between the two (2) year rate and one (1) year rate for the six (6) months the equipment was rented.

10. Service

Unless otherwise specified by the using activity, the Kyocera Mita America, Inc. must repair or replace equipment within nine (9) working hours after it receives written or oral notice of a breakdown in equipment. If not, deductions of rental charges will be made on the basis of 1/30th of the monthly rate for each day the equipment is inoperative. The Kyocera Mita America, Inc. shall grant a credit to the Government for any machine which fails to perform at an effectiveness level of ninety percent (90%) during any month. The effectiveness level for a machine is computed by the formula: one (1) minus the total number of hours downtime divided by the total productive time in the month. Total productive time shall be computed by multiplying 8 hours per day by the number of working days in the month (weekends and Federal Holidays excluded). The credit shall be a percentage amount of the fixed monthly rental charge, which is determined by subtracting the actual percentage of effectiveness level attained during the month from 100.

Example: If a machine was down for 20 hours a month, which had 168 hours of total/productive time, the percentage downtime would be 11.9% (20 hrs/168 hrs), the effectiveness level would be 88.1% (100% - 11.9%); however, if the effectiveness level were 90% or higher, no credit is due the government.

In the event that a piece of rental equipment is inoperative due to machine failure, through no fault or negligence of the Government, and the total number hours of downtime exceeds ten percent (10%) of the total productive use of time for three consecutive calendar months, the government reserves the right to require Kyocera Mita to replace the equipment or terminate the order with no termination or removal charges being assessed to the Government. The purchase option credits for the replacement equipment shall be not less than the credits accrued from the date of installation of the original equipment, regardless of whether the replacement is made at the request of the government or for the convenience of the Kyocera Mita America, Inc..

Kyocera Mita and/or its Authorized Dealer will provide all routine maintenance and service during their regular business hours (9:00 AM through 5:00 PM) Monday through Friday, except for recognized state and federal holidays. Kyocera Mita reserves the right to inspect a government rented copier and/or read the meter(s) at any time during the customer's business hours. Kyocera Mita may substitute an equivalent model copier for any copier, which requires service under this agreement.

11. Alterations

Customer agrees neither to make any alterations to any equipment nor to remove any equipment from the installation address without prior approval, which will not be unreasonably withheld.

12. Risk of Loss

While the equipment is installed on the Government's premises, Kyocera Mita shall assume all responsibility for loss or damages to the equipment, except for loss or damage caused by the negligence or willful act of the Government.

13. Movement of Equipment

The Government shall give at least thirty (30) days written notice of the movement of equipment, unless such move is required because of an emergency.

Shipment to the new installation site shall be at the Government's expense by padded van or airfreight. The Government may ship the equipment by Government transportation or by commercial carrier.

When the shipment is under the control of Kyocera Mita and/or its authorized representative and damage is incurred which results in costs for either labor or parts to restore the equipment to good operating condition at the new site, such costs shall be borne by Kyocera Mita.

When the shipment is under the control of the Government and damage is incurred which results in costs for either labor or parts to restore the equipment to good operating condition at the new site, such costs shall be borne by the Government.

FULL SERVICE MAINTENANCE

1. Full Service Maintenance Agreement

Full Service Maintenance provided under this agreement shall include and be limited to replacement of all parts, photoconductor drum, labor and maintenance required to keep the copier in good operating condition. Staples and paper are not included.

2. Replacement of the Photoconductor Drum

Replacement of the photoconductor drum shall be limited to normal wear based upon normal operation of the copier and will not be replaced when abuse, neglect, vandalism, or unauthorized repair(s) are the cause for replacement.

3. Provision of Service

Failure to perform inspection service as stipulated in the contract (unless unlimited repair calls are allowed) will result in a deduction of 1/12th of the yearly rate for each month of such delay. Further, failure to render emergency service within nine (9) working hours (maximum), after written or oral notification, unless otherwise stated, will be subject to a deduction of 1/30th of the monthly rate for each day the equipment is inoperative.

Kyocera Mita America, Inc. (Kyocera Mita) shall grant a credit to the Government for any pieces of equipment, which fails to perform at an effectiveness level of ninety percent (90%) during any month. The effectiveness level for the equipment shall be computed in the

same manner as under SIN 51-55. The credit shall be the percentage amount of the fixed monthly maintenance charge, which is determined by subtracting the actual percentage of effectiveness level attained during the month from 100.

Example: If the effectiveness level for a machine is 87% for the month, the credit would be 13% of the fixed monthly maintenance charge; and, if the effectiveness level is 90% or higher, there is no credit due under this provision.

4. Termination of Maintenance Agreement

No Termination charges will apply to maintenance agreements terminated at any time, upon thirty- (30) days written notice to Kyocera Mita.

5. Inspection/Maintenance Coverage

Equipment being placed under this Agreement shall be in good operating condition and shall be subject to inspection by Kyocera Mita. Equipment that requires an overhaul or repair will have the same completed on an Open Market Basis, prior to the initiation of this Agreement. There will be no charge for the inspection, provided the equipment remains within the service area of the Authorized Kyocera Mita Servicing Dealer that originally installed the equipment.

Relocated equipment, which is placed outside of the original Authorized Kyocera Mita Servicing Dealer's jurisdiction, will be subject to an inspection charge on an Open Market Basis.

Equipment placed under this Agreement immediately following expiration of the initial ninety-(90) day warranty will not be subject to this provision.

6. Relocation

Relocation of equipment covered under this Agreement will be at the expense of the Government and the Government will be responsible for all costs associated with that relocation. Should the equipment be moved to a distant location or beyond twenty (20) miles from the original installation address, there will be an increase in the Maintenance Charge under this Agreement.

Copiers located more than a fifty-(50) mile radius from a Kyocera Mita service point (dealer) will be negotiated on an Open Market Basis.

7. Exclusions

This Agreement does not include repairs made necessary by accident, abuse, misuse, neglect, theft, riot, vandalism, electrical power failure, fire, water, nuclear accident, or other casualty, or to repairs made necessary by service personnel other than Authorized Kyocera Mita Service.

Units that are placed on maintenance after previously canceling this Agreement are subject to inspection and associated charges, under item #5 above.

LEASE TO OWNERSHIP (LTOP) TERMS & CONDITIONS

1. ORDER

The Purchase Order must state that the order is for an LTOP Plan in accordance with the terms of this contract, and shall refer to Kyocera Mita America, Inc. Federal Supply Schedule Contract Number GS-25F-0062M. The minimum LTOP Term is for twelve (12), twenty-four (24), thirty-six (36), forty-eight (48), and sixty (60) months.

The Government, as Lessee, will make best efforts to fulfill that agreement, and is not entering into agreement for the purpose of acquiring LTOP Equipment for a period of time shorter than the LTOP Term.

2. LTOP CHARGES

The basic monthly LTOP charges entitle the Government to unrestricted operational use time of all LTOP Equipment. LTOP lease charges are exclusive of any and all consumable supplies and Maintenance Service.

3. LTOP TERM

The Government must lease the copier equipment placed under the LTOP Plans, uninterrupted for full term. Early termination will incur cancellation charges; see Paragraph, (10).

Upon delivery of the LTOP Equipment by Kyocera Mita, the Government agrees to promptly inspect the Equipment and, upon acceptance thereof, sign a delivery and acceptance certificate (Installation Report) acknowledging the receipt and acceptance of the equipment in satisfactory working order. The date on which Kyocera Mita delivers the relevant LTOP Equipment shall be the Acceptance Date.

4. TITLE

The Government shall be presumed to have title to the equipment immediately upon delivery and shall be deemed to be the owner of the equipment as long as it is not default under the LTOP, in the event of default, title to the equipment shall revert back to the Kyocera Mita free and clear of any interests the Government may have in the equipment. At the conclusion of the LTOP term, title shall permanently pass to the Government upon payment, in full, of all outstanding charges, if any.

5. ALTERATIONS AND ATTACHMENTS

Alterations to the equipment and/or attachments may not be made without prior written approval by Kyocera Mita. If in Kyocera Mita's opinion, an alteration or attachment interferes with the normal operation or maintenance of any LTOP Equipment in a way that creates a safety hazard or substantially increase the cost of maintaining it, the Government will promptly remove the alteration or attachment and restore the equipment to its normal configuration at the Government's expense.

6. BILLING INVOICES AND PAYMENT

Kyocera Mita shall submit invoices for payment on a monthly basis; Payment of invoices shall be made in full within thirty (30) days after the date of the invoice. Payment terms are net 30 days. Authorized Kyocera Mita Dealers are not certified to issue invoices or accept payment of Federal Government Funds for transactions referencing Kyocera Mita's GSA Contract.

7. RENEWAL

The Government cannot obligate funds beyond September 30th of each year. The initial term shall be from date of award and continue until expiration of the fiscal year.

Except as specifically provided herein, the Government shall renew each Purchase Order at the conclusion of the initial term, and at the end of any renewal term thereof, for a period of one year or until the end of the LTOP Term, whichever is sooner, for all the LTOP Equipment, by giving written notice to renewal to Kyocera Mita as soon as practicable, but not more than thirty (30) days after the date the Government receives formal notification from its funding source of its approval budget.

An LTOP renewal Purchase Order must incorporate the terms and conditions by the reference of Kyocera Mita's GSA Contract, and include the installed machine model, location and serial number.

8. PRICE VARIANCE

The monthly LTOP price stated at the beginning of the LTOP term shall remain the same throughout the entire term.

9. PURCHASE OPTION OF LEASED EQUIPMENT

The Government shall have the right to purchase the LTOP Equipment leased under a Purchase Order at any time by submitting to Kyocera Mita a written Purchase Order specifying each item of LTOP Equipment by model and serial number, and by authorizing payment of the purchase option price. The purchase option price shall be equal to the net present value of the monthly payments remaining through the completion of the relevant LTOP term, discounted to present value at the same interest rate charge upon execution of the original LTOP order. Title will pass to the Government, and LTOP will terminate on the date of the Purchase Order providing for exercising the purchase option. The purchase option price can be calculated with the following formula:

$$\frac{X}{(1+i)^n}$$

X = LTOP monthly payment

n = Number of payments remaining in the LTOP term

i = Interest rate at time of acquisition divided by 12. For example if the interest rate is 10% then $i = .10/12 = .00833$. **For the interest rate in effect at the time of your LTOP commenced, contact your Kyocera Mita representative.**

10. CANCELLATION TERMS

a. For Equipment Ordered and Installed Under Kyocera Mita's prior GSA Contract (GS-26F-1006B) and renewed under the subject GSA Contract:

All provisions for termination, including cancellation for Non-Appropriation of Funds and Termination for Convenience, under Kyocera Mita's prior GSA Contract, will apply.

b. For Equipment Ordered and Installed Under the subject GSA Contract:

Kyocera Mita National Accounts Department must receive notification of cancellation, in writing thirty (30) calendar days prior to the designated removal date.

The Government (or its authorized agents) may not terminate an LTOP under this contract in order to avoid its buyout obligations or to obtain the same or similar equipment at more favorable terms. Should early termination be required, the cancellation charge shall be equal to the net present value of the monthly payments remaining through the completion of the relevant LTOP term, discounted to present value at the same interest rate charged upon execution of the original LTOP order. The termination value can be calculated with the following formula:

$$\frac{X}{(1+i)^n}$$

X=LTOP monthly payment

n=Number of payments remaining in the LTOP term

i=Interest rate at time of acquisition divided by 12. For example if the interest rate is 10% then $i = .10/12 = .00833$. **For the interest rate in effect at the time your LTOP commenced contact your Kyocera Mita representative.**

All cancellation charges must be paid to Kyocera Mita at the remittance address specified on Kyocera Mita's invoices.

c. Termination for Convenience of the Government

Equipment ordered under the LTOP plan is intended to provide for a firm commitment by the Government to continue the plan and remit all monthly payments through completion of the committed term. It is understood that for various reasons, the Government may exercise cancellation of the LTOP prior to completion of the committed term under the Termination for Convenience clause of the Contract. Should the Government exercise early cancellation of an LTOP under this clause, the cancellation charge shall be calculated as described in 10(b) above.

d. Abolishment of the Using Activity

There will not be a cancellation charge if the particular using activity is abolished or funds are not appropriated to this activity and Kyocera Mita receives a minimum of 30 days written notice from the contracting officer of cancellation, which shall be effective as of the date of such abolishment, and a copy of the documentation that abolishes the using activity.

11. REMOVAL TERMS

When the Government removes equipment under LTOP, the Government shall, all its own risk and expense, have the LTOP Equipment packed for shipment in accordance with Kyocera Mita's specifications and shall return the LTOP Equipment to Kyocera Mita's at the location specified by Kyocera Mita in the continental United States in the same condition as when delivered, ordinary wear and tear accepted. Any expenses necessary to return the LTOP Equipment to good working order shall be at the Government's expense. Upon request by the Government, and at the Government's expense, Kyocera Mita shall assist the scope of the removal of Kyocera Mita equipment; such assistance does not relieve the government of its return or payment obligations hereunder. The Government must deliver a valid Purchase Order for such services prior to the performances of such services.

12. STATE AND LOCAL TAXES

Notwithstanding the provisions of the clause entitled "Federal, State and Local Taxes" (see FAR 29.401-1), the contract price excludes all state and local taxes levied on, or measured by, the contract or sale price of the supplies or completed services furnished under this contract. Taxes excluded from the contract price shall be separately stated on Kyocera Mita's invoice. The Government agrees either to pay to Kyocera Mita amounts covering such taxes, or to provide Evidence necessary to sustain an exemption therefrom.

13. RISK OF LOSS OR DAMAGE

Kyocera Mita shall be responsible for the risk of loss or damage to the LTOP Equipment during periods of manufacture, transportation and delivery up to the Acceptance Date. As of the Acceptance Date, the Government shall be responsible for risk of loss or damage to the LTOP Equipment except for (i) normal wear and tear, and (ii) loss or damage caused by the negligence of Kyocera Mita, its agents, subcontractors or employees that would be repaired or placed at Kyocera Mita's expense.

No loss or damage to the LTOP Equipment or any part thereof shall impair any obligation of the Government to pay the periodic LTOP payments due under the Purchase Order, which shall continue in full force and effects. In the event of any such loss or damage after the Acceptance Date, then the Government shall at Kyocera Mita's option either repair such LTOP Equipment, reimburse Kyocera Mita for the reasonable cost of repairing such LTOP Equipment, or promptly pay Kyocera Mita an amount equal to the Purchase Option Price determined as of the effective date of such purchase in accordance with paragraph 1 above.

14. MOVEMENT OF INSTALLED LTOP EQUIPMENT

In the event that equipment being maintained under maintenance in accordance with terms and conditions and requirements of Kyocera Mita, including this modification, is moved to another location, Kyocera Mita shall continue to maintain the equipment at the new location unless the equipment is moved to a geographical location not covered by this Contract. If the equipment is moved to a geographical area not serviced by this Contract, the maintenance order shall be terminated without further obligations being incurred by Kyocera Mita. The Government shall give at least thirty (30) days written notice of its intentions to move LTOP equipment unless such move is required due to emergency. Shipment to the new installation site shall be at Government expense by padded van or airfreight. The Government may ship the equipment by Government transportation or commercial carrier. When the shipment is under control of Kyocera Mita and damage is incurred that results in costs for labor or parts to restore the equipment to good operating condition at the new site, such costs shall be borne by Kyocera Mita. When the shipment is under the control of the Government and damage is incurred that results in costs for labor or parts to restore the equipment to good operating condition at the new site, such costs shall be borne by the Government.

15. MAINTENANCE

The Government must enter into a Maintenance Agreement as described under SIN 51-57 "Terms and Conditions Applicable to Maintenance" for all equipment under an LTOP.

16. ASSIGNED AND/OR TRANSFER

The Government shall not assign or transfer the lease of the LTOP, sublet or lend the Equipment under LTOP, or permit it to be used by anyone other than Government and the Government's employees, or for official Government business without the prior written consent of Kyocera Mita.

17. RATES

LTOP rates offered to the Government are available for 12, 24, 36, 48 and 60 month terms. The monthly LTOP rate stated at the beginning of the LTOP term shall remain the same throughout the entire term.

GENERAL INFORMATION

1. Hours of Operation

Normal hours of operation for Kyocera Mita's Headquarters and Regional Offices is (9:00 AM - 5:00 PM) Monday through Friday, local time. Kyocera Mita's Authorized Servicing Dealers are normally open between the hours of (8:00 AM - 5:00 PM) local time.

2. Business Size:

4. Response to Service Calls

Normal response to service calls will be in nine (9) working hours or less for any emergency service call. Routine maintenance or calls for preventative maintenance where the machine is fully operational will be taken on an as available basis, but will be responded to in a timely manner and commensurate with good service practice and procedures.

5. Service Maintenance and Rental Maintenance

The following items are included in all full service maintenance agreements for purchased and leased units, and included in rental agreements:

All parts
Labor
Preventative Maintenance
Copier Drums (Photoconductors)
Fuser Heat and Press Rollers
Fuser Wicks
Toner
Developer

The following items are not included:

Fuser Oil
Staples
Paper

6. Supply Orders (when not choosing optional maintenance contracts with supplies)

All supply orders will be filled on a case quantity basis only. Orders for less than a case will be returned to the ordering agency. All supplies will be shipped FOB destination. Supply orders should be processed at the time of ordering copier equipment. Local Kyocera Mita Authorized Dealers may be willing to sell consumable supplies on an OPEN MARKET BASIS in quantities smaller than one (1) case as set forth herein, but are not obligated to do so.

7. Returned Invoices

When returning an invoice to Kyocera Mita for correction or for any disputed amount, please include the following:

- a) A brief written narrative detailing the alleged problem.
- b) Identification of a contact person by name, phone/fax numbers to include an area code for commercial transmission.

8. Local Dealer Service

In most service areas Kyocera Mita America, Inc. has more than (1) local authorized servicing dealer. If the ordering agency has preference for a particular dealer that assisted them in securing this order, please indicate that dealer's name on your purchase order as Kyocera Mita Servicing Dealer. If no dealer is listed, Kyocera Mita will assign a servicing dealer from your local area.

9. Electricity

The Government must furnish the proper electrical current and required receptacles for any equipment ordered under this contract.

12. Networking

The Government must furnish the proper Network connection for any connected equipment ordered under this contract. A Network Administrator must be present during installation of the equipment to provide access to the network, facilitate configuring the equipment, and is responsible for configuring the network. For information on Network compatibility see the specifications section of the description for each machine.
