Overview

Triangle Technology is an information technology consulting company specializing in recruiting the top technical talent for permanent as well as contract employment. We are built on the foundation that people, whether clients, candidates, or employees, deserve the best and receive the best.

MISSION

Triangle Technology's mission is to provide high quality technical consulting and full service recruiting in a personal and professional manner.

WHY TRIANGLE TECHNOLOGY?

Triangle Technology is a leading provider of technical services in the high tech community. We have been successful by continually exceeding client expectations and delivering the top talent in the industry. **What sets us apart is our approach, expertise, responsiveness, and technical depth, all designed to address your unique requirements.**

Triangle Technology's approach to recruiting centers on the idea that choosing a job is one of the most important decisions in a person's life, and selecting a new employee is a major step in a company's future. Every step of our recruiting process is focused on one goal, your goal.

Triangle Technology's business approach is to build life-long partnerships with our clients, candidates, and employees. We spend the time to truly understand what all parties are looking for and deliver it. We have been successful in serving our clients, candidates, and employees by establishing and cultivating lasting relationships. **The real distinction in our services is not what we do, but how we do it.**
