

# Quality, Value and Ease of Use in Laparoscopic Trocar Systems

GSC offers the widest variety of  
cannula/trocar systems – all of  
which are fast and easy to prep  
for surgical procedures

Innovations in Surgical Technology

# Does it Seem Like Your Staff is Looking for 3 Different Laparoscopic Trocar Systems?

## The Surgeon

Needs a trocar that can be depended on for consistent sharpness and reliability, procedure after procedure.

## The O.R. Nurse

Needs an easy laparoscopic cannula that's lightweight, radiotranslucent and durable through thousands of autoclave cycles.

## The Administrator

Seeks to fulfill HUB requirements and meet the needs of the surgical staff, while receiving significant cost savings and a reduction of medical waste.

**G**ibbons Surgical Corporation introduces a solution for the entire staff...

### The SealTight™ Open Laparoscopic Cannula System

- *Lightweight, easy to use*
- *Material tested through 2,000 autoclave cycles*
- *Radiotranslucent*

The SealTight™ system features a disposable trocar for a sharp stick every time. The cannula is reusable, which reduces medical waste and brings cost savings of 50% to 70%.

Would you like more information on the superior quality instrumentation and the significant cost savings available from Gibbons Surgical Corporation? **Contact us today: 1-800-959-1989**

## Look No Further... Our Systems Fit All O.R. Requirements

### “Quick Tie”™ Hassan-Type Open Laparoscopic Cannula System

- Allows open laparoscopic access to the peritoneal cavity.

### Seal Tight Cannulas

- Made of a new generation thermoplastic with exceptionally high temperature stability.
- Threaded cannulas provide superior anchoring to abdominal wall.
- Non-threaded cannulas provide less trauma.
- Pliable dual-valve system helps maintain pneumoperitoneum and minimizes damage to instruments.
- A vast array of sizes ranging from 3mm to 12mm.

### Shielded Trocars

- Buffers distal end beyond abdominal wall.

### Reducers

- Single-handed operation with easy slide action.

### Sealing Cap/Valve Kits

- Provides convenient prepackaged combinations of sterile kits.
- 100% latex free.
