### THANK YOU!

We want to thank all of you for the best year to date here at Craig Communications! It is heartwarming to have customers that are so loyal. Many of you are customers since we started Craig Communications back in 1997. The success of Craig Communications is truly a reflection of your trust & friendship. I find it most gratifying that most of our new business came by referral from existing customers. Once again, we thank you and we will continue to give you great savings and customer service.

Ric Craig/CEO

### We now carry headsets

In a continued effort to stay ahead in the telecommunications world, we at Craig Communications are excited to carry Plantronics and GN Netcom headset products. Wide selection designed for various office situations from the large call center to the small business/home office. Log on

at: [www.craigcommunications.net](http://www.craigcommunications.net) and go to our Plantronics & GN Netcom page for pricing.

Also, we now carry the full line of Polycom conference phones. The Soundstation 100, 200, 300 and 400 are audioconferencing products which feature unsurpassed full-duplex sound quality that makes it seem as if all the participants are sitting in the same room. Log on for more details and pricing. No one can beat our prices!

### Save on long-distance services for your business

By purchasing your telephone equipment from us, you have saved your company money, and now Craig Communications can help you save on your long distance service too.

We now offer long distance service through American Telecom Network (ATN), one of the leaders in long distance service. They were rated one of the best long distance carriers in Consumer Reports February 2000 issue. We at Craig Communications feel strongly about saving businesses like yours money with all your telecommunication needs. We would be glad to do an analysis of the long distance portion of your bill. If you have any questions, please call us at 1-800-306-3377.
