

# Hawaii Construction Bidding for the Future

Hawaii Planz Administrators came from the brainchild of Kenny Leong. He was like all busy electrical contractors who found it increasing difficult to pickup construction plans in order to bid for future business.

Picking up these plans and bidding on them is ultimately necessary for the success of any construction contractor. The need for future business is necessary to keep the cash flow and the company alive. However, these plans are available only during normal business hours, from Monday through Friday. This is also the same time that you're working on current jobs. The dilemma is constantly rearing its ugly face as you must leave your current job site in order to pickup these plans, taking up a lot of valuable time. Thus resulting in considerable loss of revenue.

**Architectural plans available when you want and need them**

There had to be a better way. There are many companies on the internet that offer services 24 hours a day, 7 days a week - why couldn't plan distribution? He found that many mainland US states were already using the Internet for plan distribution but Hawaii was not yet setup. Hawaii is now ready for this type of service and Hawaii Planz Administrators is here to provide it.

## IS THIS FOR YOU

Are you a contractor that wants to stay ahead of the game to be competitive in Hawaii's construction industry? Do you find it difficult to break away from your current jobs (or have to hire a runner) to pickup plans for future jobs? Do you see wasted money in the blue prints sitting on the shelves that you bid on that you were not awarded? If you answered yes to any of the above questions our service is for you. You owe it to yourself to check it out!

## WHAT WE HAVE TO OFFER

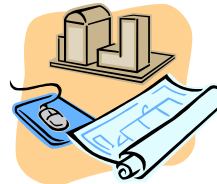

HawaiiPLANZ.com is now housing construction plans that are available for contractors to provide bid proposals. The web site is setup in a fashion that any person of any technical ability can navigate and find what they're looking for easily. Included in the membership services are the following:

- **AUTOMATIC EMAIL NOTIFICATION**—this feature proves to be the most valuable asset to our members. We generate an email message notifying you of a project that meets your criteria has just entered our database. You will no longer have to scan and search through project listings to see if there is a project available that you may want to bid on. Thus, giving you the most amount of time available to produce your bid!
- **PROJECT PLAN PREVIEW**— There are a number of projects that may appear to be something your company may wish to bid on, however, after picking up the plan you find out that you won't bid on it for one reason or another. With our project preview function, you will now be able to weed out those projects before you expend any time or money towards that project.

**Download Plans to your computer any time of the day!**

- **PROJECT DOWNLOAD**—This function is the basis of our company. Utilizing our service you can now download and print the plan on your plotter in your office without the high cost of reproducing blue prints.
- **ADDENDUM NOTIFICATION**—Most projects that come out have addendums that need to be considered in a bid. Our members will be notified of the available addendum when it is available. You can then preview the addendum to see if it applies to you or not, saving you countless hours of having to pickup addendums that do not apply to you.

**Preview plans and specs before you decide.**

- **PLAN PRINTING & DELIVERY**—for those that do not have a plotter available to them, we offer printing and delivery service through The Blue Print Company. You easily preview plans and order them on-line, any time of the day.

Our website is hosted on high-end servers with high speed connectivity to ensure the fastest downloads available.

Come check us out at HawaiiPLANZ.com for information and to sign-up today!

## *Hawaii Construction in the 21st Century*

**Innovation and technology is here to stay and  
affects all industries. The construction industry  
is no exception.**

**You can now get plans for future business on  
the Internet 24 hours a day—7 days a week!**

**Preview the plans and do your take-offs for bid  
proposal without the expenditure of costly blue-  
prints until you're awarded the bid!**

**Use your time wisely. Don't let the architects or  
plan holders dictate how you operate your busi-  
ness. Download the plans when you are ready  
and available; not when you're working on cur-  
rent projects or restricted to the inconvenient  
weekday hours of the Government Agencies.**
