

JLR226IC

The Johnson Big Wheel Mowers feature:

- Extra strong angled T-type handles that provide a better hand position for trimming along fences or brush
- Semi-pneumatic front wheels with recessed positioning to allow front trimming, unlike mowers with extended swivel wheels
- Heavy-duty bicycle-type puncture-resistant knobby-tread tires with ball bearings
- Steel blade hub housing
- 4 Position adjustable cutting height
- All models are available with an optional mulching kit.
