Preservation of the Earth's ecological system is today a major concern. Indiscriminate deforestation of the Amazon Basin and other rainforests has led to widespread suspicion by the public of those companies in the teak industry.

Kingsley~Bate leads the way in the outdoor furniture market...the first American company to use Javanese teak exclusively in the manufacture of its furniture. All of our teak is harvested from carefully-controlled plantations, established in Indonesia by the Dutch in the Mid-19th century. The Indonesian government allows the felling of a limited number of trees each year, and ensures that an equal amount of reforestation takes place.

In 1983 Kingsley~Bate, in conjunction with the Indonesian government and its people, undertook to develop a teak furniture program in Java. Since then, Indonesia and Kingsley~Bate have shown that such a program can be implemented without detriment to that country's natural resources.

The Sea Island
