

# KENKUT® Safety & Sanitation Dispenser

For plastic film and aluminum foil

## Cross Contamination Alert

A recent scientific study has helped the foodservice industry discover one of the most overlooked vehicles for cross contamination of E. Coli, Salmonella, and other pathogens.

## Cardboard!

Even the most professional kitchen, like yours, has this dirty little secret

Is this what you want in your kitchen?

Where do these dirty cardboard fragments go???

- KENKUT is available for 12 inch, 18 inch and 24 inch foodservice film and foil
- Up to 15% of the roll of film or foil is wasted due to tangles or thrown out because the cardboard box falls apart.
- Using a KENKUT Safety Dispenser will actually save you money and pay for itself!
- Replacement blades and suction cups are available
