

OmniTrust™

Latex Exam and Surgical Gloves

OmniTrust™ medical gloves are made to strict quality standards in modern, state of the art manufacturing facilities. Our non-sterile, ambidextrous latex exam glove line features two reduced protein powder free glove products and a lightly powdered glove. We also offer our **OmniTrust™** lightly powdered and powder free sterile surgical gloves as well.

All of our products are bar coded using UCC standards to enhance supply chain efficiencies for our customers.

Latex Exam Gloves

Powder Free Reduced Protein Gloves

112 OmniTrust™ Latex Powder Free CL

A lightly chlorinated, reduced protein latex examination glove with less than 50µg of protein per gram. Featuring excellent donning characteristics and textured for added grip control. Flat packed for optimum dispensing. Available in sizes Small through Extra Large.

113 OmniTrust™ Latex Powder Free PL

Reduced protein latex examination glove with less than 50µg of protein per gram. This glove is micro-textured for added grip control without loss of tactile sensitivity. The glove is manufactured with a non-chlorination process thus maintaining the stretch characteristics of latex in its non-chlorinated state. A unique polymer lining gives this glove excellent donning characteristics. Flat packed for optimum dispensing. Available in sizes Small through Extra Large.

Lightly Powdered Gloves

111 OmniTrust™ Latex Powdered

Lightly powdered examination gloves with a special bisque finish for enhanced grip control. **OmniTrust™** Latex Powdered contains less than 200µg of protein per gram. Available in sizes Small through Extra Large.

Latex Surgical Gloves

132 OmniTrust™ Sterile Latex Surgical Gloves Powder Free CL

Reduced protein latex surgical gloves with <50µg of protein per gram. Lightly chlorinated to maximize donnability without loss of grip control. Tapered and beaded cuff to enhance donnability and to reduce roll down. Space saving packaging and convenient shelf dispenser carton.

131 OmniTrust™ Sterile Latex Surgical Gloves Powdered

Lightly powdered sterile surgical gloves with excellent grip control and tactile sensitivity. Gloves are have tapered beaded cuff to aid in donning and reduce roll down. Space saving packaging and convenient shelf dispenser carton.
