

The Superior Alternative

Service Life

Field testing has shown Low Friction Locomotive shoes lasting up to 9 times longer than traditional Cast Iron shoes.

Benefits:

- **Direct Cast Iron Replacement**-No conversion costs
- **Lighter Weight**-Approximately two-thirds less than cast iron shoes
- **Safety**-Eliminates handling of heavier cast iron shoe
- **Extended Service Life**-Field tests have shown a significant improvement over cast iron shoes

Style	Thickness (Inches)	Length (Inches)	Width (Inches)	Average Wt. Per Shoe	Cross Reference (RFP-COBRA)
LI-101	2"	14"	3-3/8"	9.5 lbs.	V-503
LI-102	2"	14"	3"	8.5 lbs.	V-501

Printed on each shoe
