# Introduction and Catalog Index

---

## Introduction

This catalog was developed to assist our existing customers as well as introduce our new customers to the products that many of you have requested over the years. Our goal is to develop closer ties and relationships with you by providing "One-Stop" shopping for your morgue, field and lab supply needs.

Although there are many common products offered herein, we have developed access to resources which allow us to locate and source almost any morgue or lab product commonly used in our field. Please call us or ask your Customer Service Representative for any products not included in this catalog offering.

This catalog as well as other information is available by contacting us toll free at (800) 345-2922. You may also download it from our internet site [www.medicalproducts.com](http://www.medicalproducts.com) or email us at [sales@medicalproducts.com](mailto:sales@medicalproducts.com).

# HAZMAT Protective Suits and Respirator Levels

	<p><b>Level A</b> represents the greatest danger of respiratory, eye or skin damage from hazardous vapors, gases, particulates, sudden splash, immersion or contact with hazardous materials. It calls for total encapsulation in a vapor tight chemical suit with self-contained breathing apparatus (SCBA) or supplied air and appropriate accessories.</p>
	<p><b>Level B</b> situations call for the highest degree of respiratory protection but a lesser need for skin protection. It calls for SCBA or positive pressure supplied air respirator with escape SCBA, plus hooded chemical resistant clothing (overalls and long sleeved jacket; coveralls; one or two piece chemical-splash suit; or disposable chemical-resistant coveralls boots and gloves.</p>
<p><b>LEVEL C</b></p>	<p><b>Level C</b> is the lowest level of hazmat protection. Level "C" requires NIOSH N95 or higher level of respiratory protection but a minimal need for skin protection. It calls for half mask or full-face negative pressure respirators or powered air respirators (PAPR's). Level "C" requires use of a hooded chemical resistant suit or two piece chemical resistant suit, chemical resistant boots and gloves. Respirator must be able to remove <u>all</u> chemical and biological agents and the agent must pose <u>no splash hazard</u>.</p>

**\*\*\* SEE INSIDE BACK COVER FOR NIOSH RESPIRATOR STANDARDS \*\*\***

## NIOSH and CDC Approved N95 Respirator

- Magic Arch ® polypropylene strips encased in mask material to provide a comfortable breathing chamber.
- Aluminum strips on both top and bottom to ensure a custom fit and seal. Fluid resistant outer facing with cool, soft inner material.
- Mask material is fiberglass and latex free with comfortable dual knit elastic headbands.
- NIOSH Approved Universal "One-Size-Fits-All" Design. No need to stock multiple size masks for each user. NIOSH Cert: TC-84A-0427
- High filtration efficiency with a BFE at over 99% at .1 micron
- Packed 35 Units Per Box/ 6 Boxes Per Case

Part No	Size	Color	Qty/Cs	Lbs/Cs	Kg/Cs
ALP-695	UNIV	TEAL/WHT	210	6	2.72
ALP-FIT-TE	QUAL FIT TEST KIT		1	1	.45

## Dual Cartridge Respirator

- Low cost, reusable NIOSH respirator protection
- Lightweight, comfortable and easy to use • NIOSH Cert: TC-23C-1457
- Available in three (3) sizes for custom facial fit
- Filter cartridges available for most particle and vapor risks

Part No	Description	Size	Color	Qty/Cs	Lbs/Cs	Kg/Cs
NEO-MK32-S	DUAL CART RESPIRATOR	SM	BLK	1	1	.45
NEO-MK32-M	DUAL CART RESPIRATOR	MED	BLK	1	1	.45
NEO-MK32-LG	DUAL CART RESPIRATOR	LG	BLK	1	1	.45
NEO-NP2275	P100 HEPA FILTER CART	N/A	MAG	2	1	.45
NEO-NP2295	OV FILTER CART	N/A	BLK	2	1	.45

## Dual Cartridge Respirator w/Full Face Shield

- Full face cover NIOSH respiratory protection mask
- Anti-Fog Coated Face Plate Lens
- Easy to communicate and comfortable to wear
- Filter cartridges available for most particle and vapor risks

Part No	Size/Item	Size	Color	Qty/Cs	Lbs/Cs	Kg/Cs
NEO-TK2	FULL FACE RESP	UNIV	BLK	1	2	.91
NEO-NP2170	P100 HEPA FILT CART	N/A	MAG	2	1	.45
NEO-NP2172	OV FILTER CART	N/A	BLK	2	1	.45

## NEO-NP2131K NBC Canister Style Gas Mask

- Full-face mask protection against nuclear, biological and chemical agents in the form of particulates, vapors and aerosols
- Packaged in a special reseal able pouch to block ultraviolet light and protect from other contaminants
- Each mask certified with date of final factory "smoke test"
- Supplied with carrying bag.
- Designed for civil defense anti-terrorist emergencies
- Order NBC Filter Cartridge Separately. Level "C" Protection

Part No	Size/Item	Size	Color	Qty/Cs	Lbs/Cs	Kg/Cs
NEO-NP2131	FULL FACE NBC RESP.	ADULT	BLK	1	2	.91
NEO-NP8000	NBC FILTER CART	N/A	MAG	2	1	.45
NEO-NP8005	DRINKING TUBE	N/A	BLK	2	1	.45

## Positive Pressure Respirators

## FR-2 "First Responder" PAPR

- Battery powered respirator for disaster "First Responders" and stand-by Industrial Emergency use
- Complete unit with Neoprene full face mask, air supply tube, integrated blower, alkaline (optional lithium) battery pack, waist belt and two (2) "Super NBC" Filter Canisters
- "Super NBC" Canisters effective against certain levels of "war gasses" and potential terrorist agents such as nerve and tear gas
- NIOSH approved protection for P100 HEPA particulates, radon daughters, radio nuclides, organic vapors, chlorine, hydrogen chloride, sulfur dioxide, formaldehyde, ammonia and methylamine
- Level "C" Respirator. NOT FOR USE in environments that are immediately dangerous to life and health

Part No	Description	Color	Qty/Cs	Lbs/Cs	Kg/Cs
NEO-F2	Complete full face respirator with alkaline battery pack and two (2) Super NBC Canisters	BLK	1	7	3.18
NEO-NP5505-2	Set of two (2) Super NBC Replacement Canisters	N/A	2	2	.91

## FR-3 "First Responder" PAPR

- Battery powered respirator for disaster "First Responders" and stand-by Industrial Emergency use (Batteries Included)
- Complete unit with Tychem® SL Saranex hood and cape (butyl rubber hood optional), air supply tube, integrated blower, alkaline (optional lithium) battery pack, waist belt and three (3) "Super NBC" Filter Canisters
- "Super NBC" (Nuclear, Biological & Chemical) Canisters effective against certain levels of "war gasses" and potential terrorist agents such as nerve and tear gas
- NIOSH approved protection for P100 HEPA particulates, radon daughters, radio nuclides, organic vapors, chlorine, hydrogen chloride, sulfur dioxide, formaldehyde, ammonia and methylamine.
- Level "C" Respirator. NOT FOR USE in environments that are immediately dangerous to life and health. NIOSH Certification No. TC-21C-2092

Part No	Description	Color	Qty/Cs	Lbs/Cs	Kg/Cs
NEO-FR3	Complete Tychem® hood respirator with battery back and three (3) Super NBC Canisters	WHT	1	7	3.18

## TF-3 Rechargeable Battery System PAPR

- Full Hood design prevents any possible access to users face of splashes, flying insects etc.
- User remains cool as the built-in fan circulates filtered air continuously over the users face to remove perspiration
- Bearded personnel can wear and still achieve N95 level protection.
- Fully compliant with and exceeds OSHA and CDC standards.
- Uses Cartridge Filters to allow use of std. HEPA filters or organic vapor filters
- Available with blue nylon "super-top" hood or full face neoprene face mask
- Full Face version provides excellent facial seal but requires fit testing of personnel
- Level "C" Respirator. NOT FOR USE in environments that are immediately dangerous to life and health.

Part No	Description	Color	Qty/Cs	Lbs/Cs	Kg/Cs
NEO-TF3-72	Complete System w/ 8 Hr. Cap. Recharg. Battery, waist belt and full blue hood (w/o filter cart.)	BLU	1	7	3.18
NEO-TF3-62	Complete System w/ 8 Hr. Cap. Recharg. Battery, waist belt and full face mask (w/o filter cart.)	BLU	1	7	3.18

## Lightweight Battery Powered Air Respirator

- NIOSH N95 Approved PAPR System
- Provides full head and facial protection from airborne pathogens
- Full-face clear vision window allows communication with the hearing impaired as well as providing excellent field of vision
- Top cap of hood covers the respirator fan and is constructed of filter media material eliminating the need for a separate belt mounted filter and blower unit
- Belt mounted battery pouch contains rechargeable battery capable of 8 – 12 hours of continuous operation
- Level "C" Respirator protection. NOT FOR USE in environments that are immediately dangerous to life and health
- Available in Disposable Full Hood or Low Profile Design
- Excellent for use during autopsy, pathology lab and crime scene operations or anywhere personal exposure to airborne pathogens is a risk

Part No	Description	Color	Qty/Cs	Lbs/Cs	Kg/Cs
BM-2000-300 **	Full Hood Starter Kit	BLU	1	7	3.18
** Kit Includes Helmet, 10 Hr. Rechargeable Bat. , Belt, Battery Charger, 3 Disposable Hoods, and 10 Pre-filter Caps					

## CF-60 NIOSH Approved Battery Powered HEPA Filter Air Respirator System

- Healthcare Hood allows personnel to talk on the phone and see clearly without vision obstructions
- Allows verbal communication with hearing impaired
- User remains cool as the built-in fan circulates positive pressure filtered air continuously over the user's face to remove perspiration
- Bearded personnel can wear and still greatly exceed N95 level protection (also avail. w/ "Full Hood Option")
- No Fit Testing Required to comply with CDC Standards and OSHA Regulations. NIOSH Approved. NOISH Cert No: TC-21C-402
- Available with Healthcare Style open side for hospital type environments or Full Hood Design for less stable or outdoor air conditions

Part No	Description	Color	Qty/Cs	Lbs/Cs	Kg/Cs
NEO-CF60-04	Complete System w/ 8 Hr. Cap. Rechargeable Battery, waist belt, hood and HEPA filter	BLU	1	7	3.18
NEO-MB14-72	Complete System w/Full Hood Option	BLU	1	7	3.18
NEO-NP1519	Battery Charger for NEO-CF60-04/MB14-72	BLK	1	1	.45

## Level A or B Self Contained Breathing Apparatus

### MSA Workmask ® Self Contained Breathing Apparatus

- MSA Self-Contained Breathing Apparatus (SCBA) are economical, lightweight and durable units designed for use in industrial "high-risk" Level "A" and "B" environments
- Optional Dual-Purpose version combines the capabilities of a SCBA and air-line respirator for greater versatility
- SCBA are pressure-demand apparatus, designed to maintain a slight positive air pressure inside the face piece during inhalation and exhalation. This helps prevent contaminants from seeping in around the face piece, even if there are small breaks in the face-to-face piece seal.
- NOT Approved by NFPA for use in fire fighting operations

Part No	Description	Color	Qty/Cs	Lbs/Cs	Kg/Cs
MSA-GML-SCBA	MSA Workmask ® Emerg. Resp. SCBA with #30 Stealth Carbon Cylinder and Carry Case	GRN	1	20	9.07

## Level "C" Protective Suits

### Tyvek ® Basic Coverall

*When you see this new label, you'll know it's New Tyvek®!*

- Tyvek ® Coverall w/ Elastic Wrist and Ankles or set in sleeves
- Sewn seam construction with full front nylon zipper
- Semi-impervious "New" Tyvek ® Material
- Semi-impervious, offers a dry particulate barrier and some light splash protection

Set In Sleeve Basic Coverall (Meets ANSI/ISEA 101-1996 specifications)

Part No	Seam Const.	Color	Qty/Cs	Lbs/Cs	Kg/Cs
CVRALL-1412-XX	SEWN	WHITE	25	8	3.63
Same as above but with Elastic Wrist and Ankles					
CVRALL-1417-XX	SEWN	WHITE	25	8	3.63

XX – Available Sizes: SM/MED/LG/XL/2X/3X/4X \*\*

### Tyvek ® Coverall With Hood and Boots

- One piece Tyvek ® Suit w/ Attached Hood and Anti-Skid Boots
- Sewn seam construction with full front nylon zipper
- Semi-impervious, offers a dry particulate barrier and some light splash protection

Part No	Seam Const.	Color	Qty/Cs	Lbs/Cs	Kg/Cs

## Level "B" and "C" Protective Suits

### Tychem QC ® Coverall With Hood and Boots

- One piece Tychem ® QC Suit w/ Attached Hood and Boots
- Available with sewn or sealed seams
- Full front nylon zipper, elastic wrists and face
- Impervious to blood borne fluids as well as many acids and alkalis
- Can provide protection from blood borne pathogens, Level "B" Hazmat Protection from several chemical agents in dry aerosol form, light splash protection for sewn version and heavy splash protection in the sealed seam construction.

Part No	Seam Const.	Color	Qty/Cs	Lbs/Cs	Kg/Cs
CVRALL-5414-XX	SEWN	YELLOW	25	12	5.44
CVRALL-70150-XX	SEALED	YELLOW	6	8	3.63

XX – Available Sizes: SM/MED/LG/XL/2X/3X/4X \*\*

### Tychem SL ® Coverall With Hood and Boots

- One piece Tychem SL ® Suit w/ Attached Hood and Boots w/Straps
- Full front "storm flapped" zipper, with elastic wrists and face openings
- Impervious Tyvek ® spun bonded olefin by Dupont laminated with Saranex ® 23-P film from Dow Chemical
- Available with bound or sealed seams
- Can provide Level "B" Hazmat Protection in the presence of most hazardous chemicals and bio-pathogens.

Part No	Seam Const.	Color	Qty/Cs	Lbs/Cs	Kg/Cs
CVRALL-44414-XX	BOUND	WHITE	12	15	6.8
CVRALL-72150-XX	SEALED	WHITE	6	8	3.63

XX – Available Sizes: SM/MED/LG/XL/2X/3X/4X \*\*

### Tychem BR ® Coverall With Hood and Boots

- One piece Tychem BR ® Suit w/ Attached Hood and Boots
- Full front "storm flapped" zipper, with elastic wrists and face openings
- Newest Dupont high level material for Evaluating Protective Clothing Materials (ASTM F1001) for over 200 chemicals and agents
- Sealed seam construction
- Provides solid Level "B" Protection for most Hazmat exposures

Part No.	Seam Const.	Color	Qty/Cs	Lbs/Cs	Kg/Cs
CVRALL-BR150-XX	SEALED	YELLOW	6	8	3.7

XX – Available Sizes: SM/MED/LG/XL/2X/3X/4X \*\*

# Unique NEW! BioVu™ HD Body Bag

- Unique optically clear interior vinyl panel allows viewing the remains contained in the bag with minimal exposure risk to personnel. Secured inner panel also allows for examination of remains while maintaining "Chain of Custody" integrity using our serialized tamper resistant zipper pull seals shown below.
- All seams are 100% RF heat sealed to eliminate any possible leakage. Designed for today's "high-risk" bio-hazard exposures (Complies with OSHA Reg. 3130 - Universal Precautions)
- Envelope style heavy-duty zipper with dual zipper pulls
- Exterior material is 18 Mil HD abrasion resistant vinyl
- Eight (8) padded handles RF welded directly into and are integral to the bag material for comfortable handling during transport. This eliminates the exterior sewn or riveted "webbing" style handles used on traditional transport body bags. This feature avoids webbing "tear-out" or failure during rough handling, while maintaining the fluid tight integrity of the bag.
- Static Lift Tested to 650 LB Capacity
- Extra large 42" Width x 90" Long

Available with or without the BioVu™ Clear Panel

Part No	Description	Color	Lbs/Cs	Kg/Cs	Qty/Cs
BIOVU-100-60	42 x 90" (107 x 229 cm) 8 Handle HD Vinyl With BioVu™ Panel – Adult Size - Envelope Zipper	Black	36	16.3	5

## 8 Handled RF Sealed HD Disaster Body Bag

All the same specs as Our BioVu™ shown above but without the clear inner panel.

Part No.	Description	Color	Qty/Cs	Lbs/Cs	Kg/Cs

## 6 Handle HD Disaster Transport Body Bag

- Exterior material is 18 Mil HD Vinyl Coated Poly Scrim
- 6 Ultra-Strong and extra wide web handles for ease of handling by multiple individuals. Tested to 450 lb. lifting capacity.
- Large capacity (144") envelope style heavy-duty zipper with dual zipper pulls for easy access.
- Double folded sewn and sealed seams to minimize possible leakage.
- Extra long (96") length and extra large (72") girth
- Bag is manufactured to US Dept of Defense specifications. Can be lifted by helicopter or crane.

Part No	Description	Color	Lbs/Cs	Kg/Cs	Qty/Cs

## NIOSH Respirator Filter Standards

1. Respirators with N100, N99, and N95 filters (99.97%, 99%, and 95% efficient filters) may be used for any solid or non-oil containing particulate contaminant.
2. Respirators with R100, R99, and R95 filters (99.97%, 99%, and 95% efficient filters) may be used for any particulate contaminant. If used for an oil containing particulate, a one- shift (8 hour) use limit applies.
3. Respirators with P100, P99, and P95 filters (99.97%, 99%, and 95% efficient filters) may be used for any particulate contaminant.

All NIOSH certified respirators have an assigned "protection factor". The "protection factor" indicates how much the respirator will reduce a wearer's exposure to airborne particles assuming a good fit.

The goal of using a respirator is to reduce the exposure to an acceptable level that will not adversely affect the wearer. The assigned protection factor predicts the potential reduction in exposure that would occur if one were properly wearing that type of respirator properly fit to the face.

### Protection Level Table

Concentration of Airborne Particles	Respirator Protection Factor	Protection Level
<b>10,000 Part. Per Cubic Foot</b>	<b>10</b>	This means the person could expect to reduce their exposure by 10 times resulting in a possible inhalation of 1000 particles.
	<b>50</b>	This means the person could expect to reduce their exposure by 50 times resulting in a possible inhalation of 200 particles.
	<b>1000</b>	This means the person could expect to reduce their exposure by 1000 times resulting in a possible inhalation of 10 particles.
	<b>10,000</b>	This means the person could expect to reduce their exposure by 10,000 times resulting in a possible inhalation of 0 particles.

### Medicalproducts Respirator Cross Reference

Protection Factor	Respirator Type	NIOSH RATING	MEDICALPRODUCTS P/N
<b>10</b>	<b>Half Mask (one that fits over the nose and under the chin)</b>	<b>N95</b>	<b>ALP-695</b>
		<b>P100</b>	<b>NEO-MK32</b>
<b>50</b>	<b>Full-face (one that fits over the eyes and under the chin)</b>	<b>P100</b>	<b>NEO-TK2/NEO-2131K</b>
<b>1,000</b>	<b>Full-face, helmet, or hood connected to a Powered Air Purifying Respirator (PAPR)</b>	<b>P100</b>	<b>NEO-TF3, NEO-FR2 AND NEO-FR3</b>
<b>10,000</b>	<b>Self Contained Breathing Apparatus (SCBA)</b>	<b>N/A</b>	<b>MSA-GML-SCBA</b>

## ANSI Coverall Sizing Chart

## Encapsulated Suit Sizing Chart

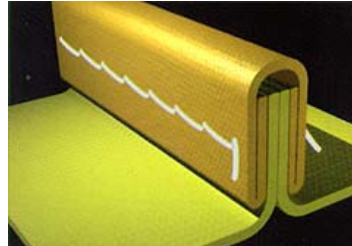

## Seam Construction for Protective Clothing

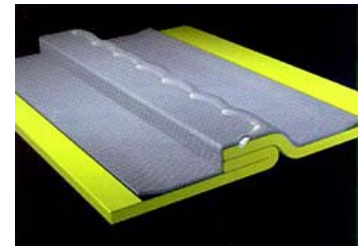

**Serged Seam**

Exposure limited to dry particulate agent or light splash of liquids not harmful to skin.

**Sewn and Bound Seam**

Higher degree of risk of exposure to agents in either liquid or dry form.

**Heat Sealed Seam**

Highest Degree of protection from harmful liquid, dry chemical or unknown agents
