

Digital Video Depositions

Depositions are conducted by professionally attired, Legal Video Specialists following the Federal Rules of Civil Procedure. Our staff is certified and/or trained using the NCRA's Standards for Certified Legal Video Specialists (CLVS).

Digital recording produces a superior, more effective video. Individual lavalier microphones with a professional mic mixer ensure quality audio. A portable backdrop eliminates distracting backgrounds and provides a neutral setting. Continuous date/time/seconds is imprinted on the video.

Bottom line - the most professional people and best equipment guarantee you'll have no worries on each and every video deposition.

Minimum includes the first hour, set-up, breakdown and travel. Minimum* may vary according to location. Original cassettes priced separately.

First hour (*minimum)	\$295
Each additional hour	\$ 95

Original Cassettes

Duplication

VHS Cassette Copies - per hour	\$ 35
--------------------------------	-------

Professional grade cassettes hold up to 2 hours of video.

CD Copies - per hour	\$ 50
----------------------	-------

Video is digitally compressed and copied to a CD. Each CD holds up to 2 hours of computer-friendly video.

DVD Copies - per hour	\$ 65
-----------------------	-------

Video is digitally compressed and copied to a DVD. Each DVD holds up to 2 hours of TV-quality video. Not for use with Video-Transcript Synchronization yet.

Video-Transcript Synchronization

Synchronize the video with the transcript to quickly search, edit and present your deposition. Your synched video can be formatted for use with SANCTION™, Trial Director™, VideoNote™, Summation™ and RealLegal™.

Free YesLaw software is optional. Editing your video is as easy as using a highlighter. Export video clips to RealLegal™ and PowerPoint™.

Per hour	\$ 50
----------	-------

"I worked with one of your video specialists last week and I just wanted to let you know how impressed I was with him. He is very professional and personable, and does a great job handling the lawyers and the video."

Lorene Eppley, RPR
Eppley Court Reporting

"Thank you for your outstanding work on our case. It was your dedicated professionalism - your availability around the clock any day of the week, and your ability to meet seemingly impossible short deadlines - that made our trial preparation a snap!"

Victoria C. Cohen, Esq.
Menard, Murphy & Walsh, LLP

Digital Editing

Digital editing allows unlimited changes without signal loss. The original cassette is unaltered. Seamless transitions on edited depositions give courtroom presentations a smooth, professional look.

Per hour	\$125

"...your videographers are the most professional and competent that I work with; they know what they're doing."

Edward Varallo, CRR
Farmer Arsenault Brock LLC

Video Playback

When in trial, you need to focus on the case and your client. Our Legal Video Specialists are experienced with courtroom protocol. We respectfully set-up and operate the equipment you need to make an effective presentation. Last minute rulings can be edited in court with our A/V control station. DVD players and hook-ups for laptop computers are available.

-- Projector Package: includes a powerful LCD projector, screen and professional VCR. Auxiliary speakers are adjusted to the optimum level so the jury hears every word clearly.

-- 27" TV Monitor Package: includes a 27" monitor on a draped A/V cart for the jury, a 13" monitor for council, a personal monitor for the judge and a professional VCR.

First hour (minimum)	\$295
Each additional hour	\$ 75

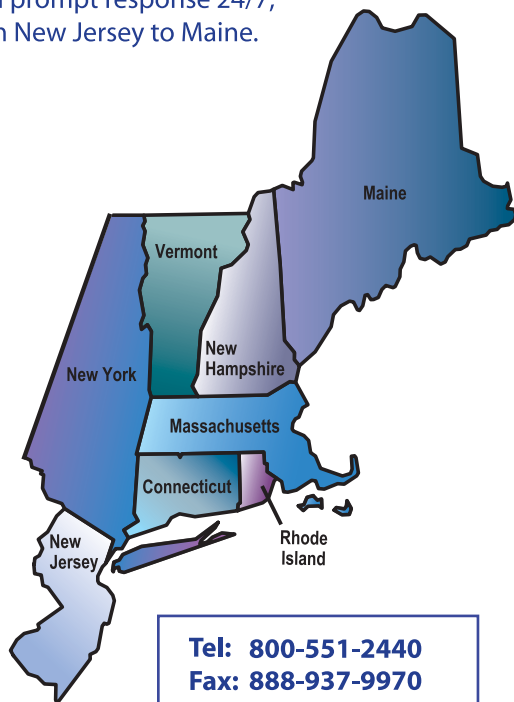

Trial Presentation Equipment

Every trial is unique. Presentation equipment is offered a-la-carte so that your case is presented in the most dynamic and cost effective manner. We offer a free consultation to evaluate the physical layout of the courtroom and the presentation needs of your case. Sight lines must be clear for the judge, jury, witnesses and counsel. We make sure all parties are satisfied with the position of equipment and assure cables are safely & neatly secured.

LCD Projector -- TV Monitors -- Computer Computer Monitors -- Scan Converter Visual Presenter (DOAR, Elmo)
Overhead Projector -- X-Ray View Box VCR -- DVD Player
