Premium Nixalite®
All Stainless Steel Bird Barrier Spikes

The first and most successful bird control needle strips ever made. Nixalite's high grade stainless steel wire and strip barriers protect all types of surfaces from all species of pest birds and climbing animals. Approved by US Humane Society.
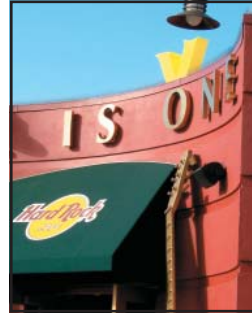

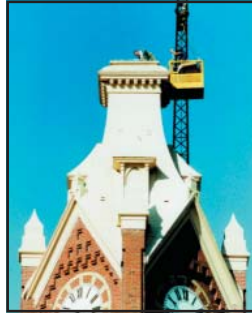

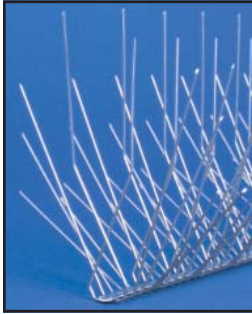

Longest Lasting
100% stainless steel construction outlasts and outperforms plastic and lesser grade steels. All Premium Nixalite models have a 20 year warranty.

Superior Control
Premium Nixalite models resemble a porcupine with spring tempered wires covering 180°, all attached to a 1/4″ wide, flexible base strip.

Proven Effective
Since 1950, Nixalite's Premium Models have proven to be the most effective, reliable and humane bird control for all bird species in all levels of bird infestations.

Flexible, Easily Installed, Cuts To Length, Fire Proof, UV Proof

Premium Nixalite® S

Made by Nixalite in the USA — *Installation example*
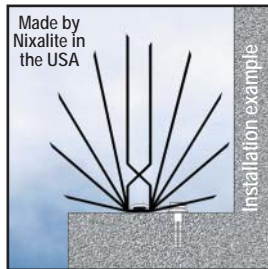

Uses
- Full row model for all birds
- Pigeons, seagulls, starlings, sparrows, vultures and more
- Use with Premium Nixalite W to control climbing animals and mud nest building birds

Details
- 4″ wide, 4″ high
- 120 points / foot
- 180° wire coverage
- Hardware included
- Inconspicuous
- Lasts a lifetime

Applications
- Ledges, Parapets, Columns
- I-beams, Pipes, Cables
- Roofs, Gutters, Eaves
- Lights, Signs, Canopies
- Bridges, Power poles
- Solar panels, etc

Premium Nixalite® H

Made by Nixalite in the USA — *Installation example*
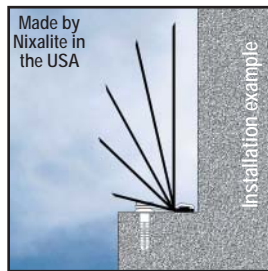

Uses
- Half row Premium model
- Use to protect narrow surfaces 2″ in depth or less
- Use with Premium Nixalite S on wider surfaces for proper protection

Details
- 2″ wide, 4″ high
- 60 points / foot
- 90° wire coverage
- Hardware included
- For narrow ledges
- Inconspicuous

Applications
- Single exposed surfaces less than 2″ in depth
- Use with model S on surfaces too deep for 1 full row, but not deep enough for 2 full rows

Premium Nixalite® W

Made by Nixalite in the USA — *Installation example*
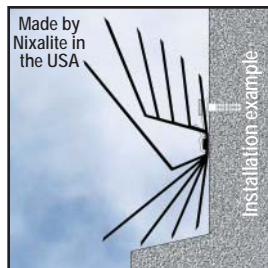

Uses
- Wall mount for vertical surfaces
- Use above narrow surfaces 2″ in depth or less
- Use with Premium Nixalite S to control climbing animals and mud nest building birds

Details
- 3″ wide, 5-1/2″ high
- 120 points / foot
- 180° wire coverage
- Hardware included
- Vertical surfaces
- Climbing barrier

Applications
- Vertical installation only, not for horizontal surfaces
- Use with Model S as a climbing barrier on poles, columns, posts, walls, supports, pipes, etc

Premium Nixalite® Kits/Strips

When ordering, write the desired Premium Nixalite Model (**S, H or W**) in front of the Item Number. Example <u>S</u>4B24 or <u>H</u>2. Combine individual strips and/or kits to get the desired Premium Nixalite total.

4 Foot Strips & Kits

Item Size	Item Number	Item Description	Total cm/m
4' strip	(S, H, W) 4	4 ft Strip	122cm
24' kit	(S, H, W) 4B24	6-4 ft Strips	7.3m

Estimating for Premium Nixalite®

Use the information below to find the quantity of Premium Nixalite required for each installation surface. To use our automated estimate worksheet, go to *www.nixalite.com/estimate.aspx*. For a printed Estimate Worksheet, call Nixalite Customer Services.

Basic Estimating Steps:

1. Measure surface **Depth** and **Length**.
2. Is surface **Single** or **Double Exposed**?
3. Use tables to find the **Rows Required**.
4. Rows Required X Length = Total.

Single Exposed   Double Exposed
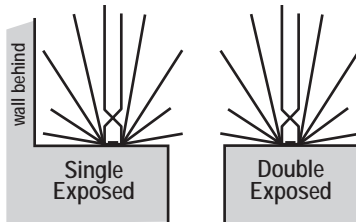

Single Exposed		
Surface Depth		**Rows Required**
Inches	Centimeters	
0 - 2	0 - 5.1	1/2 row*
2 - 4	5.1 - 10.2	1 row*
4 - 6	10.2 - 15.3	1-1/2 rows
6 - 9	15.3 - 22.9	2 rows
9 - 14	22.9 - 35.6	3 rows
14 - 19	35.6 - 48.3	4 rows
19 - 24	48.3 - 61.0	5 rows
For each additional 5" add 1 row		

Double Exposed		
Surface Depth		**Rows Required**
Inches	Centimeters	
0 - 3.5	0 - 8.9	1 row*
3.5 - 5.5	8.9 - 14.0	1-1/2 rows*
5.5 - 8.5	14.0 - 21.6	2 rows
8.5 - 13.5	21.6 - 34.3	3 rows
13.5 - 18.5	34.3 - 47.0	4 rows
18.5 - 23.5	47.0 - 59.7	5 rows
23.5 - 28.5	59.7 - 72.4	6 rows
For each additional 5" add 1 row		

* ½ row = Premium Nixalite H   Whole numbers = Premium Nixalite S
Call Nixalite for instructions if installing Premium Nixalite W
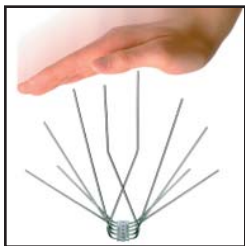

Soft Tip Option - when a soft touch is needed

Changes the pointed wires to flat tip wires on **Premium Nixalite S** and **H** and **all E-Spike**.

Use Soft Tip only for less demanding bird control installations and/or where frequent human contact is likely. For all other applications, use the original pointed design.

Use the original pointed wire design for nearly all bird and animal installations and/or where human contact is unlikely. Climbing animal barriers must use the pointed wire design of the Premium Nixalite Models S and W.

Soft Tip is a zero cost option!

To select Soft Tip for your bird spikes, check the "ST" box on the Order Form

ColorCoat™ Colors - durable color powder coating

Available in 8 standard and custom colors on **4 ft lengths** of Premium Nixalite and **E-Spike**.

ColorCoat Orders require additional time, are paid in advance of coating and are non-returnable, non-refundable items. Call Nixalite Customer Services for details.

Standard Colors:
Black   Grey   White   Tan
Brown   Bronze   Red   Green
Custom colors are available - call for details.

ColorCoat fees are separate and are added to bird spike cost.

For Standard ColorCoat prices, see the Order Form. ColorCoat available on 4 ft long strips only.

For Item Numbers & Prices see the Order Form
24/7 go to *www.nixalite.com/colorcoat.aspx* for Premium Nixalite information

E-Spike Stainless Steel Bird Spikes
Economy Bird Deterrent Spikes With Quality Features

When cost dictates the job, you can't beat E-Spike's economy and value. This all stainless steel bird spike is designed to deter pigeons and seagulls. Do not use for small birds or for heavy infestations of any bird. For total surface control, use Premium Nixalite® Barriers (pgs. 2 & 3).
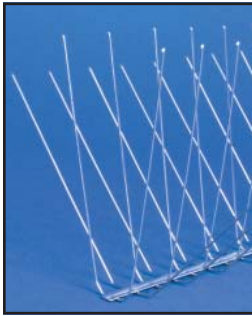

Affordable Quality
All stainless steel spikes for pigeons and seagulls. No plastic, 100% UV and flame proof, no assembly, ready to install.

Value and Versatility
Covers up to 7″ of surface with a single row. The flexible base follows curves and can be quickly cut to the desired length.

E-Spike Fastening
Fastens with optional hardware, glue clips and adhesive or just adhesive. ColorCoat and Soft Tip options are available.

E-Spike Models

100% stainless steel construction with a 1/4″ wide, flexible base strip. Use to deter pigeons and seagulls in light infestations.

Model 6405
Standard full row model installs with optional hardware or hardware and adhesive.

- 6″ wide, 4″ high, 48 points/ft
- Pointed or Soft Tip wires
- Available in ColorCoat colors

Made by Nixalite in the USA

Installation example
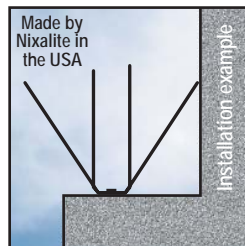

Item Size	Item#	Description	cm/m	Strips
2′ strip	E2	2 ft strip 6405 full row	61cm	1
4′ strip	E4	4 ft strip 6405 full row	122cm	1

Order 100 feet of Model 6405 and save!
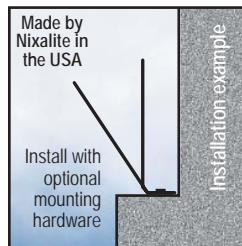

Model 3405
Special half-row model installs on narrow surfaces with optional mounting hardware.

- 3″ wide, 4″ high, 24 points/ft
- Pointed or Soft Tip wires
- Available in ColorCoat colors

Made by Nixalite in the USA

Install with optional mounting hardware

Installation example

Item Size	Item#	Description	cm/m	Strips
2′ strip	E32	2 ft strip 3405 half row	61cm	1
4′ strip	E34	4 ft strip 3405 half row	122cm	1

Order 100 feet of Model 3405 and save!

Mounting Hardware Not Supplied With E-Spike

Mounting hardware and/or accessories must be purchased separately. To find the quantity needed, refer to the table "**How Much Hardware**" on page 5. Order the hardware items best suited for your application. If you have any questions, call ABC Nixalite.

Estimating for E-Spike

Basic Estimating Steps:
1. Measure surface **Depth** and **Length**.
2. Is surface **Single** or **Double Exposed**?
3. Use tables to find the **Rows Required**.
4. **Rows Required** X **Length** = **Total**.

Single Exposed *Double Exposed*
wall behind

Single Exposed

Tools & Accessories

ABC Nixalite offers a variety of helpful and time saving accessories and tools for the installation of our bird spike strips. All tools and accessories are sold separately. They are not included with your order. If you have any questions about our accessories, call ABC Nixalite.

Installation Tool
Easily position Premium Nixalite or E-Spike strips in mounting clips.

Item #	Description
NT87	Installation Tool

Wire Tying Tool
Quickly twists wire ties around bird spikes and suspended objects.

Item #	Description
WT20	Wire Tying Tool

Cutting Tool
Cleanly cuts bird spike base strips, sheet metal, etc.

Item #	Description
CT93	Cutting Tool

Square Drive Tools
Use to install our sheet metal screws.

Item #	Description
SD00	Square Hand Driver
DB00	Square Driver Bit

Adhesive
Use with glue clip & wire tie fastening. Use to fasten spikes only when mounting hardware cannot be used.

Item #	Description
600C	Cartridge (10.2 oz)
600T	Squeeze Tube (3.7 oz)

Glue Clip
Stainless form for removable adhesive fastening when hardware can not be used. For Premium Nixalite & E-spike. RB Clips pre-installed.

Item #	Description
MHGC	Glue Clip

Ridge Cap
Stainless form with pre-installed RB clips. Uses nails to install Premium Nixalite & E-Spike to steep pitched roof peaks and other shapes.

Item #	Description
MHRC	Ridge Cap

Retail Kit
Designed for in-store sales, this kit includes 5-2 ft strips of Premium Model S Nixalite and a variety of mounting hardware. Sold in cases of 20 kits.

Item #	Description
S2B10RK	10 ft Retail Kit

Custom Installation Forms
ABC Nixalite designs and manufactures custom forms to help fasten the Premium Nixalite and E-spike strips to difficult surfaces.

Custom forms are made from high grade stainless steel and have mounting hardware already in place, saving installation time.

Custom Form Surfaces:
- I-Beams
- Angle Iron
- C-Channel
- Steel Tube
- Fragile Stone
- Glass
- Wide Ledges
- Roof Ridges
- Rain Gutters
- Glass Surfaces
- Sealed Lights
- Tiled Roofs

Contact ABC Nixalite for more information on custom made installation forms

24/7 go to *www.nixalite.com/nixaliteaccessories.aspx* for Installation Accessory information

Composite & Plastic Pigeon Spikes
Low Cost Deterrent for Pigeons & Seagulls

Composite

Plastic

The lowest cost bird spikes available. Designed for pigeons and seagulls, our Pigeon Spikes can be installed quickly on all types of surfaces. Not recommended for other birds or controlling heavy infestations of any bird. ABC Nixalite offers two models; **Pigeon Spike Composite** and **Pigeon Spike Plastic**.

Pigeon Spike Models

Both Pigeon Spike Models come in 12″ lengths. Both feature a flexible UV stabilized plastic base. Hardware is not supplied and must be purchased separately. See page 5 for mounting hardware details.

Pigeon Spike Composite
- 12″ long strips, 6″ wide, 5″ high
- 20 flat-tipped wire points/foot
- 304 stainless steel wires
- Durolon® polycarbonate base
- For pigeons and seagulls only
- Hardware & adhesive available

Pigeon Spike Plastic
- 12″ long strips 6″ wide, 5″ high
- 20 plastic points per foot
- All UV stabilized plastic spike
- 100% Durolon® polycarbonate
- For pigeons and seagulls only
- Hardware & adhesive available

Item Size	Item#	Description	cm/m	Strips
1′ strip	PSCOM	1 ft Composite	30.5cm	1

Order 100 feet of Pigeon Spike Composite and save!

Item Size	Item#	Description	cm/m	Strips
1′ strip	PSPLA	1 ft Plastic	30.5cm	1

Order 100 feet of Pigeon Spike Plastic and save!

Mounting Hardware Not Supplied With Low Cost Pigeon Spikes

Mounting hardware must be purchased separately, see page 5 for details. If using hardware, purchase 2 fasteners for each strip. If using adhesive, purchase 1 cartridge (#600C) for every 16 strips of Pigeon Spike.

Estimating for Composite & Plastic Pigeon Spikes

Use the information below to find the quantity of spikes required for each surface. The spacing tables apply for **both models**. For narrow ledges use the Pigeon Spike Plastic Model (#PSPLA) and remove one outside row of plastic prongs.

Basic Estimating Steps:
1. Measure surface **Depth** and **Length**.
2. Is surface **Single** or **Double Exposed**?
3. Use tables to find the **Rows Required**.
4. Rows Required X Length = Total.

FliteLine® Post & Wire
Surface Deterrent System for Pigeons & Seagulls

FliteLine is an inconspicuous post and wire deterrent that can be installed on all types of surfaces to deter **pigeons** and **seagulls** from landing and roosting. It consists of spring tensioned, UV coated stainless steel wires installed at different heights between stainless steel posts. Not for small birds or heavy infestations of any type of bird. For total surface control use Premium Nixalite Bird Spikes (see pgs. 2 & 3).

Simple Installation

Custom mounting available

You Asked For It
Our customers asked us to make the best post & wire system. The result is FliteLine. It's everything you asked for and more.

Quality & Value
Quality from all stainless steel posts, springs and cable. Value from unbeatable prices and ease of installation.

Discreet Deterrent
FliteLine's thin posts and stainless wire make it hard to spot when installed. Use where low visibility is an important factor.

When and Where to use FliteLine®

When: Use to deter pigeons & seagulls where the **problem birds are few in number**. If small birds are present or if there are a lot of birds, use Premium Nixalite Bird Spikes (pgs. 2 & 3).

Where: FliteLine can be installed on nearly any surface. It is safe for hand rails, decks, patios and other places where people are expected to come into contact with the installation. FliteLine is discreet and can be used where low visibility is an important factor.

FliteLine® Components

Flite Posts are available with a stainless steel base (Flite Base) or with a Nail Point tip. Posts with a Flite Base can be fastened to many different surfaces with the available sheet metal screws or adhesive. Nail Point posts are tapped into wood surfaces or used with anchors for masonry surfaces. **When ordering FliteLine**, use the Item #'s and descriptions provided below.

Flite Posts

K-Net HT Bird Netting
Unbeatable Strength, Quality and Value

High strength, seamless construction and unbeatable prices make K-Net HT Bird Netting the perfect choice for all types of bird exclusion jobs. Made from multi-strand, black polyethylene, K-Net HT is extremely durable and versatile. It is ideal for long term use in harsh environments, indoors and outdoors, for all types of birds.

Why K-Net HT is the Best in Bird Netting

- Made from black, high density polyethylene (HDPE)
- Each 12 ply strand has a 75 lb knotted breaking strength
- K-Net HT is UV, flame, abrasion and rot resistant

- Seamless, 3/4″ square mesh is uniform in appearance
- K-Net is available in **Black** or **Stone** color
- Installs with all types of netting hardware

- K-Net HT comes folded with tagged corners for fast layout
- K-Net HT is manufactured and tested in compliance with ISO 9001-2000 Quality Management Standards

K-Net HT Applications

K-Net HT can be installed on, over, under and around an endless list of objects, openings and structures. It is ideal for long term use on architectural, aquacultural and agricultural bird exclusion applications.

- Window bays
- Eaves & dormers
- Bell/clock towers
- Roof framing
- Park shelters
- Car/train bridges

- Columns
- Roof top HVAC's
- Bus/train stations
- Stables & arenas
- Warehouses
- Loading docks

- Pool/spa covers
- Landscaping
- Grain storage
- Plant nurseries
- Livestock pens
- Catfish ponds

- Hatcheries
- Holding tanks
- Clam/oyster beds
- Sewage plants
- Refuse/garbage containment

K-Net HT Netting Sizes

Use the Item #'s and Descriptions below to order K-Net HT Bird Netting. Combine different sizes to get the desired netting coverage. Remember to **always** allow extra netting for perimeter fastening and for any overlapping seams. If you have any questions about coverage, contact ABC Nixalite or go to *www.nixalite.com/birdnetting.aspx.* **K-Net HT available in Black or Stone colors.**
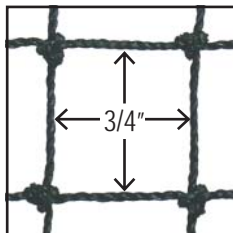

shown actual size

Item #	Description	Sq. Ft. (sq.m.)
K-Net 25x25	25′ x 25′ K-Net HT	625 (58)
K-Net 25x50	25′ x 50′ K-Net HT	1,250 (116)
K-Net 25x100	25′ x 100′ K-Net HT	2,500 (232)
K-Net 50x50	50′ x 50′ K-Net HT	2,500 (232)

PollyNet Bird Netting
Economical, Durable, Versatile

Effective, strong, easy to install and very economical - what more can you ask from bird netting? PollyNet is a seamless, knotless and UV resistant polypropylene bird netting that is installed on, over or around an endless list of objects, openings and structures. PollyNet is available in 2 grades - **Premium** and **Lightweight**.
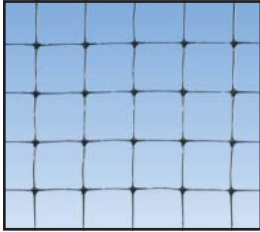

PollyNet Premium

Tough and resilient netting made to withstand the rigors of exterior structural, agricultural and aquacultural applications. 1/2″ sq. mesh keeps out all birds. 5 year UV warranty.

PollyNet Lightweight

Thinner strands and a larger 3/4″x 5/8″ mesh make it very inconspicuous. Use Lightweight netting when low visibility and economy are more important than longevity.

PollyNet Premium Applications

- Windows
- Bell towers
- I-Beams
- Canopies
- Roof eaves
- Dormers
- Louvers
- Columns
- Docks
- Bridges
- Garages
- Boat docks
- Fish ponds
- Gardens
- Signs

PollyNet Lightweight Applications

- Gardens
- Greenhouses
- Orchards
- Berry crops
- Statues
- Hatcheries
- Food courts
- Pipes/ducts
- Balconies
- Lattice
- Vineyards
- Nurseries
- Water tanks
- Landscaping
- Auditoriums

PollyNet Premium

Tough, seamless netting used for all types of bird exclusion applications. The small 1/2″ square mesh stops birds of all sizes including sparrows, swallows, etc. The Premium grade PollyNet comes with a 5 year UV warranty.

shown actual size ← 1/2″ →

Item #	Description	Sq. Ft. (sq.m.)
Netting 10	14′ x 10′ Premium PollyNet	140 (13)
Netting 50	14′ x 50′ Premium PollyNet	700 (65)
Netting 100	14′ x 100′ Premium PollyNet	1,400 (130)

Bare Hand™ Vineyard & Crop Bird Netting
Safe, Humane & Economical Bird Exclusion

Bird-pecked grapes and berries can harbor bacterial and fungal pathogens that changes the taste of wine or juice. Save your crops from hungry birds with Bare Hand Vineyard & Crop Bird Netting. Bird netting is the most reliable and economical method of bird control for vineyards and row crop farms. Install when crops are most vulnerable to birds. Remove and store for next growing season.
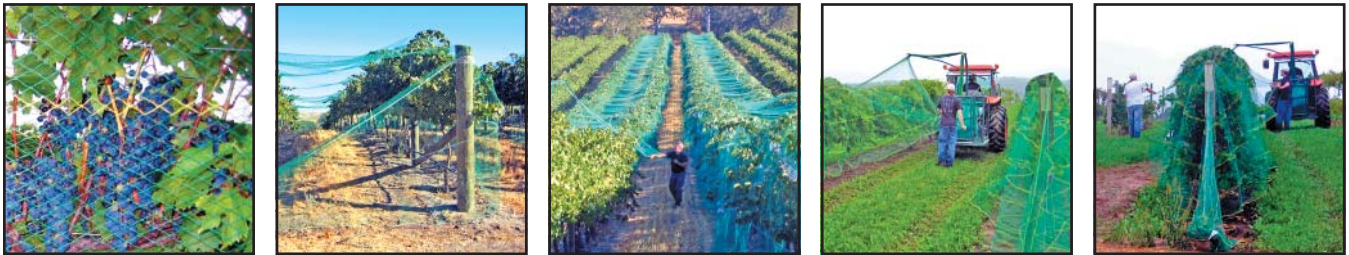

Bare Hand™ - The Best in Vineyard & Row Crop Netting

- High Density Polyethylene (HDPE) knitted yarn
- CIBA Specialty Chemicals used for UV stabilization
- Rip-stop construction prevents holes from getting larger
- Available in Bare Hand FLEX and Bare Hand EASY-FIT
- Available in Premium and Super Premium grades
- Premium grade can last 3 or more growing seasons
- Super Premium grade can last 6 or more growing seasons
- Soft net yarn is easy on grapes, berries and other soft crops
- Applied from bags with simple equipment - no spools or rolls

Bare Hand™ Flex™ Bird Netting

3/4″ diamond mesh stretches to fit. Spacing stripes aid installation. Comes in Premium grade (230 denier) and Super Premium grade (550 denier) for extended netting life.

Other Applications for Netting Hardware

ABC Nixalite's netting hardware is extremely tough and durable, making it perfect for all types of outdoor applications.

- Install, fasten or repair all kinds of fencing
- Securely bundle pipes, conduit, cables, etc
- Make your own cables for light-duty uses
- Repair furniture, upholstery, awnings, etc
- Marine use cable, turnbuckles, zippers, etc
- Unlimited applications

Deer Blocker Deer Fencing System
Effective Nuisance Deer Protection For Your Property

Deer Blocker Deer Fencing enclosures protect residential, commercial, agricultural and government property from nuisance deer and the problems they cause. Deer Blocker is an extremely strong, long lasting and easy to install nuisance deer barrier fence system.

Deer Blocker is the Best in Deer Fencing

- Made from UV, rot and abrasion resistant high density polyethylene
- Super strong, 380 denier, 36 ply strands with 175 lb breaking strength
- 4″ square mesh is nearly invisible

- Full 8 ft high, 100 & 300 ft long pieces
- HD border at all 4 sides means no extra hardware needed for top support
- Lighter, less expensive and easier to install than metal fencing

- More flexible, durable and discreet than extruded nets and fencing
- Versatile, can follow uneven terrain without modification
- Easy to unpack, handle & install

HD Border

4″ Square Mesh

Deer Blocker Deer Fence
- Strong UV resistant polyethylene
- 36 ply strands w/175 lb breaking strength
- Pieces are 8 ft high and 100 & 300 ft long
- 4″ square mesh is nearly invisible
- HD border woven into all 4 edges of mesh

Item #	Description
DF 100	8 ft x 100 ft Deer Blocker Fence
DF 300	8 ft x 300 ft Deer Blocker Fence

Install Deer Blocker as an enclosure. Combine piece sizes to get the desired perimeter footage.

E-Z Set Fence Posts

Installs quickly & easily. 1-1/4″ black coated steel angle are strong yet discreet. Drive the **DF AP4** bottom post 2 ft into the ground, bolt **DF AP8** to it with the supplied hardware.

Bird Buffer Aerosol Generator
Controls Flying Birds in Open Spaces, Indoors & Outdoors, Unattended

A programmable, electronic aerosol generator that repels flying birds with a nearly invisible haze of repellent. Birds that fly through the haze soon associate the location with the repellent, leaving the area for good. Bird Buffers are quiet, safe and efficient, using very little repellent to cover large areas. Included timers allow for unattended operation.

Bird Buffer is the Best at Repelling Flying Birds in Open Spaces

- Controls flying birds in large open spaces, indoors and outdoors
- Bird Buffers use Fog Force, a time tested and proven effective repellent
- Repellent is perfectly harmless to people, pets and plants

- Repellent haze is nearly invisible and has a pleasant grape aroma
- Bird Buffers are efficient, using very little repellent for large open areas
- Each Bird Buffer is programmable allowing for unattended operation

- Included timers allow for operation during times of peak bird activity
- Guaranteed to reduce bird traffic by 96% in the treated areas
- Quiet, safe, efficient, works where other methods of control cannot

Bird Buffer Applications

When birds fly through the dry haze they are exposed to the repellent. With each exposure, birds come to associate the area with the repellent and learn to stay away. The process is completely harmless but very effective. Use the Bird Buffer to resolve those tough open space bird dispersal problems. Here are just a few examples where Bird Buffer might be your best choice.

- Food processing/packing
- Aircraft hangars/storage
- Auto parking & storage
- Stadiums, stables
- Landfills, recycling centers

- Bus & train stations
- Warehouses, truck docks
- Orchards, vineyards, farms
- Landscaping, gardens
- Grain storage, feed lots

- Open air malls, restaurants
- Large open roof tops
- Nurseries, hatcheries
- Water treatment facilities
- Livestock containment, etc

Bird Buffer Models & Accessories

Use the Item #'s and Descriptions below to order Bird Buffers and Bird Buffer Accessories. If you have any questions about a specific application, contact ABC Nixalite or go to *www.nixalite.com/birdbuffer.aspx.*

Bird Repellents & Deterrents

Migrate Goose Repellent

Non-toxic, biodegradable and humane repellent mixed with water and sprayed on grass or turf to repel geese. Available in 1 gallon or 2.5 gallon jugs. With hand sprayers, 1 gallon of Migrate + 12 gallons water can cover up to 8,000 sq.ft.

www.nixalite.com/migrategooserepellent.aspx

Migrate Repellent for Agriculture

Formerly Crop Guardian, Migrate for Agriculture is a non-toxic, biodegradable and humane bird repellent mixed with water and sprayed on all types of crops to stop bird predation. Mixed at 1:10 ratio, spray 25 to 50 gallons per acre.

www.nixalite.com/cropguardian.aspx

The Scarecrow

Motion activated sprinkler deters animals and large birds. Adjustable sensor detects pests and triggers a short blast of water. Protect yards, gardens, shoreline, etc. 9v battery (not included) and water source required. Mounting bracket available.

www.nixalite.com/scarecrow.aspx

Bird Scare Predator Eye

Inexpensive, spot control for nuisance birds. Inflate with air, apply included decals and hang from overhanging objects. Available in yellow and black. The available aluminum bracket positions the eyes the proper distance from walls or posts.

www.nixalite.com/birdscarepredatoreye.aspx

For Item Numbers & Prices see the Order Form
24/7 go to *www.nixalite.com* for more information

Deterrents & Repellents

Repeller Ribbon

Inexpensive, spot control for nuisance birds. Holographic foil ribbon provides a visual and audible deterrent for birds. Easy to cut and install. Use as avoidance flags for deer fence installations. Available in 25 and 100 ft rolls.

www.nixalite.com/tangleguard.aspx

WindowAlert Bird Deterrent

Stop birds from crashing into your windows with WindowAlert UV reflective static cling decals. Affixed to the outside glass, WindowAlert decals reflects ultraviolet light, which birds can see while humans cannot. 3 new decal shapes.

www.nixalite.com/windowalertdecal.aspx

Tanglefoot Bird Repellent

A non-toxic, inert paste that adheres to all kinds of surfaces while remaining sticky. Repels sparrows, starlings and pigeons for up to a year. Buy in 5.5 oz. squeeze tubes, 10 oz. cartridges or 4.5 lb bulk pails. Cartridge coverage is 1 oz. per ft. of bead.

www.nixalite.com/tanglefoot.aspx

Bat-A-Way Granular Repellent

Easy to use and humane method of getting bats, birds and squirrels out of attics, wall voids and other sheltered areas. Effective in keeping rabbits out of flower gardens. Available in 4 and 24 lb containers. Typical coverage is 1 lb per 400 sq. ft.

www.nixalite.com/bataway.aspx

Ropel Bird & Animal Repellent

A non-toxic, liquid contact repellent that prevents birds and animals from chewing, pecking or otherwise damaging surfaces, plants and property. Great for woodpeckers. Quart, gallon and 5 gallon jugs available. 1 gallon treats up to 4,000 sq. ft.

www.nixalite.com/ropel.aspx

Ropel Outdoor Repellent Granules

Provides an aromatic barrier that repels dogs, cats and birds. Not offensive to humans, these granules repel animals by scent, encouraging them to leave the area. Available in 2 lb jugs. Coverage depends on species and environment.

www.nixalite.com/ropeloutdoor.aspx

Snake & Rodent Repellents

Snake-A-Way Snake Repellent

EPA approved, university tested, this environmentally safe granular repellent keeps snakes away from the places people work or play. NOT FOR INDOOR USE. Buy in 4 lb or 28 lb containers. Coverage depends on species and environment.

www.nixalite.com/snakeaway.aspx

Snake Guard Snake Traps

Capture and remove snakes from where you live, work and play. Live release, single use trap is humane, easy to use and biodegradable. The trap's glue humanely but securely immobilizes the snake, while vegetable oil frees snake from the trap.

www.nixalite.com/snakeguard.aspx

Rat Zapper

Quickly and humanely kills mice and rats with electrical shock. Powered by batteries (not included). 2 models; the Rat Zapper Classic and the Rat Zapper Ultra (larger & more efficient). The optional Rat Tale makes hidden trap monitoring easy.

www.nixalite.com/ratzapper.aspx

Rat-A-Way Rodent Repellent

Effective perimeter deterrent prevents rodents from entering structures and garbage storage areas. Reduces need for conventional indoor rodent control. Buy in 4lb or 28 lb jugs. Applied in perimeter bands. 1 lb of product = 30 lin ft band.

Surface Cleaning & Sanitizing

The First Step To Success

The first step to effective control is to clean, sanitize and deodorize the problem areas. This must be done regardless of the control or method used. ABC Nixalite offers a wide-spectrum bactericide, surface disinfectants, cleaners and deodorizers.

Steri-Fab Surface Sanitizer

A wide spectrum bactericide, viricide, fungicide, insecticide, deodorant and disinfectant. Can be sprayed on almost any surface without staining. Ground shipments only. Available in pint spray bottles and gallon containers. No mixing, ready to use.

www.nixalite.com/sterifab.aspx

Microcide SQ Disinfectant

A wide spectrum hospital grade cleaner and disinfectant that sanitizes hard surfaces as well as fabrics. EPA approved, effective in killing 100+ disease causing organisms. Mixed with water, an 8 oz. bottle makes up to 4 gallons of multi-surface cleaner.

www.nixalite.com/microcidesqdisinfectant.aspx

Microsan Antibacterial

Antibacterial hand soap and lotion that provides residual protection against disease causing bacteria and micro-organisms. Ideal for personal protection equipment. The **Microsan Field Pack** combines 2-8 oz and 1-16 oz soaps plus 2 antibacterial lotions.

www.nixalite.com/microsanantibacterial.aspx

Microsan Hand Sanitizer

Microsan Foaming Hand Sanitizer kills susceptible germs and bacteria within 30 seconds. No water is needed for effective and residual protection against disease-causing bacteria and micro-organisms. Small, convenient size for car, toolbox, pocket, etc.

Poop-Off Stain & Odor Remover

Removes odors and stains better because it contains more natural enzymes than any other brand. Active enzymes require less product to remove the worst types of odors and stains. Ready to use. Safe and biodegradable.

www.nixalite.com/poopoffremover.aspx

Poop-Off Marine Grade Cleaner

A non-toxic, biodegradable bird dropping remover that is safe and effective for use in both marine and land applications. Dissolves bird droppings both wet and dry, in or out of the marine environment. Ready to use.

Why You Should <u>Always</u> Clean First

Protect Your Health! Pest bird and animal waste can be a breeding ground for hazardous diseases, bacteria, parasites and insects. Thoroughly cleaning, disinfecting and deodorizing the surface helps protect anyone on site before, during and after an installation. Always wear a minimum of disposable clothing, respiratory protection and gloves.

Protect Your Property. Left undisturbed, bird and animal waste can destroy almost any building material. Wood, stone, steel and iron are all susceptible to the acidic mess. If allowed to accumulate, it can clog gutters, discolor paint, corrode I-beams, ruin cloth awnings and short out electrical equipment.

Eliminate the Scent Trail. Birds and animals are drawn to the scent of their own waste. Thoroughly cleaning and deodorizing installation surfaces eliminates this scent trail and discourages pests from following the scent back to their old roosts.

Nixalite® of America Inc

Our 24,000 square foot headquarters houses our executive offices, technical manufacturing and order processing center. Established in 1950, this third generation family owned company is located in East Moline, Illinois, in the heart of the Midwest.

At Nixalite, our first priority is you. We are dedicated to treating all customers in a highly respectful manner and you can be assured that your information is protected. We do not sell or distribute our customer list to anyone and all online transactions are guaranteed secure. Frequently we receive calls, e-mails and letters from our customers who take the time to express their gratitude and satisfaction in our products and the way they are treated at ABC Nixalite. Here is just one example;

> "Twice I have had the pleasure of using your company's services -- my orders have been small but your employees have made me feel I am as important as the "BIG BOYS," and the quickness with which I receive my orders is impressive! In this age of 'automorons', inefficiency and idiocy, it warms my heart to come upon a organization such as yours, THANK YOU ! ! !"

When we receive comments such as this, we know that all our efforts are appreciated and this makes us strive even harder to please you, our customer.

Protecting People and Property Since 1950

Premium Nixalite Model S on all taxiway signs

Nixalite® BASH Control for Travis AFB

Problem: Large birds of prey striking and damaging military aircraft. Red Tailed Hawks and other raptors were perching on runway directional signs.

Location: Travis AFB, CA

Installer: Wildlife Control Technologies Inc - Fresno, CA

Go to www.nixalite.com and click on 'Installation Showcase'

Solution: Installation of Premium Nixalite Spikes with Glue Clips. MSgt. Edwin F Allert said "the problem was resolved as soon as the spikes were installed". After winning a side-by-side test installation against other bird spike manufacturers, Premium Nixalite Spikes were chosen.

Nixalite Protects Hospital from Pest Bird Mess

Problem: Bird infestations at key structures around the Beaumont Hospital complex. Pigeons, starlings and sparrows were causing problems all over the complex.

Location: Beaumont Hospital, Royal Oak, MI.

Installer: Beaumont Service Corp - Royal Oak, MI

Go to www.nixalite.com and click on 'Installation Showcase'

Solution: After trying many lesser products, Frank Sorentino ordered Premium Nixalite Spikes. "This was in 1988 and we've been ordering spikes from Nixalite every year since". From signage to complete structures, Premium Nixalite Spikes have been installed with complete confidence.
