

## Three cheers for the award-winning Phaser 6200 laser printer

The Xerox Phaser® 6200 prints stunningly precise images in vivid full color—fast. Single-pass laser technology is just one way the 6200 revolutionizes color printing in the office. Intelligent work-saving features and an economical price make this printer a wise choice for busy offices, hands down.

### Let the Phaser 6200 lend a hand to your projects

- Highest resolution color at 16 pages per minute
- 2400 dpi for exacting detail; 1200 x 1200 dpi for stunning photo-quality
- Flexible paper handling for busy workgroups—high-capacity paper trays feed multiple sizes and weights of paper through a streamlined path and automatic duplexing
- High-speed 500 MHz PowerPC processor, up to 512 MB memory, true Adobe PostScript 3 and an available hard drive
