

# BULL'S-EYE

## Speed and print quality that are right on target for your business

Growth is important, but so is the bottom line. To aim for both, speed, quality and efficiency are crucial. Introducing a precise color printer that keeps pace with your business: the Phaser® 7300 printer from Xerox.

### Accurate prints in less time

- At 30 ppm color and 37 ppm black, the Phaser 7300 races through stacks of pages and multiple sets of prints.
- High 2400 dpi resolution
- First color page out in 16 seconds—waiting for YOU at the printer, instead of the other way around.
- Powerful 500 MHz processor
- Handles multiple sizes and weights of paper, from postcards to 12" x 18" banners, and from business cards to brochures
