

Nixalite® Premium Stainless Bird Spikes

"Birds Take Flight From Nixalite"

Nixalite's Premium Barrier Spikes are **all stainless steel** wire and strip barriers that protect **all types of surfaces** from **all bird species** to **all infestation levels**. The first and most successful bird spike ever made, Premium Nixalite is the original bird spike, everything else is just a copy.

Made by
Nixalite
in the
USA

Longest Lasting

100% stainless steel wire and strip construction outlasts and outperforms plastic and lesser grade steels. All Premium Nixalite Models come with a **20 year warranty**.

Superior Control

With **120 points/foot** and **180°** wire patterns, Premium Nixalite has the best **gap free** surface coverage of any bird spike. All spring tempered wires are attached to a **flexible base strip**.

Proven Effective

Since 1950, Premium Nixalite Spikes have proven to be the only bird spike capable of reliable, long lasting control of **all bird species**, on **all surfaces**, in **all levels of infestation**.

Why You Should Use Premium Nixalite®

Premium Nixalite Spikes combine all stainless steel construction, proven wire designs, a flexible base strip and the ability to adapt to all surface shapes or materials. **No other bird spike can successfully adapt to so many different applications.** Here are a few more reasons to use the best in bird control.

IT WORKS! Premium Nixalite Spikes are proven effective against all bird species, on all surfaces, in all infestation levels.

LASTING QUALITY All stainless steel Premium Nixalite Spikes outlast and outperform all others. All Premium Nixalite spikes have a 20 Year warranty.

PAYS FOR ITSELF Premium Nixalite reduces exterior maintenance and repairs caused by bird and animal infestation.

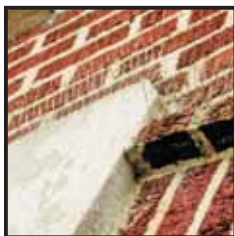

INCONSPICUOUS Nixalite's thin wires are virtually invisible from normal viewing distances. A ColorCoat option can help the spikes blend in with surrounding surfaces.

HUMANE Premium Nixalite Spikes are simple physical barriers that occupy the space, denying pest birds access.

ENVIRONMENTAL Does not use plastic, chemical pastes or electricity to work. It is 100% recyclable stainless steel.

EASY TO INSTALL Premium Nixalite Spikes come ready to install with complete instructions. No assembly or special tools are required for installation.

SERVICE The best customer service and product support available. From quotes to custom drawings, Nixalite makes this valuable service available to everyone.

Premium Nixalite® Spikes Have No Equal

Premium Nixalite Spikes are **superior** to all other bird spikes in **every way that matters**. No other bird spike can match our quality, versatility or proven control under so many different conditions. Do a side-by-side comparison and see why Premium Nixalite is the best bird spike in the World.

Premium Nixalite® S

Model Uses

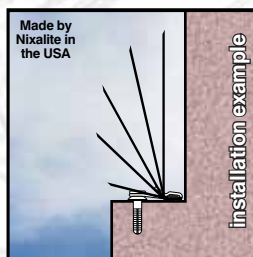

- Full row model for all birds.
- Pigeons, seagulls, starlings, sparrows, vultures and more.
- Use with **Premium Nixalite W** to control climbing animals and mud nest building birds.

Details

- 4" wide, 4" high
- 120 points / foot
- 180° wire coverage
- Hardware included
- Inconspicuous
- Lasts a lifetime

Applications

- Ledges, Parapets, Columns
- I-beams, Pipes, Cables
- Roofs, Gutters, Eaves
- Lights, Signs, Canopies
- Bridges, Power poles
- Solar panels, etc

Premium Nixalite® H

Model Uses

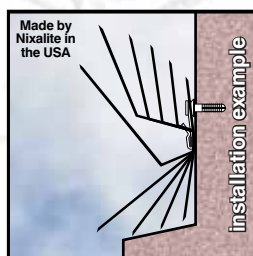

- Half row Premium model.
- Use to protect narrow surfaces 2" in depth or less.
- Use with **Premium Nixalite S** on wider surfaces for proper protection.

Details

- 2" wide, 4" high
- 60 points / foot
- 90° wire coverage
- Hardware included
- For narrow ledges
- Inconspicuous

Applications

- Single exposed surfaces less than 2" in depth
- Use with **Model S** on surfaces too deep for 1 full row, but not deep enough for 2 full rows

Premium Nixalite® W

Model Uses

- Wall mount for vertical surfaces.
- Use above narrow surfaces 2" in depth or less.
- Use with **Premium Nixalite S** to control climbing animals and mud nest building birds.

Details

- 3" wide, 5-1/2" high
- 120 points / foot
- 180° wire coverage
- Hardware included
- Vertical surfaces
- Climbing barrier

Applications

- Vertical installation only, not for use on horizontal (down flat) surfaces
- Use with **Model S** as a climbing barrier on poles, columns, walls, etc

Premium Nixalite® Bird Spike Options

ColorCoat

ColorCoat™ - durable color powder coating

Available in 8 standard and many custom colors on **4 ft lengths** of **Premium Nixalite Spikes** and the **E-Spike Economy Spike**.

ColorCoat Bird Spikes are non-returnable, non-refundable items. Call Nixalite for more information.

ColorCoat Colors available on 4 foot long spike strips ONLY

Available Standard Colors:

Custom colors available, call for details.

Black	Grey	White	Tan
Brown	Bronze	Red	Green

ColorCoat fees are separate and are added to bird spike cost.

For more information on ColorCoat options go to www.nixalite.com/colorcoat.aspx

Soft Tip

Soft Tip - flat tip wire option

Changes the standard pointed tipped wires to flat tipped wires on **Premium Nixalite Models S and H and E-Spike**. **Soft Tip is a zero cost option**.

Use Soft Tip when frequent human contact is likely and there are just a few birds present. For all other applications, use the **original pointed tip wires**.

To select Soft Tip for bird spikes, check the "ST" box on the Nixalite Order Form

Use the **original pointed tip wires** for all bird and/or animal control installation where human contact is unlikely and/or where there are a lot of pest birds and/or animals present.

All installations for **Climbing Animals** must use the **original pointed tip wires** of the **Premium S and W** Nixalite Spikes.

Nixalite® Mounting Hardware & Accessories

Mounting Clip (#MHRB)

Standard Hardware - Supplied with Premium Nixalite

Made from stainless steel or weather resistant materials, our standard mounting hardware fastens the **Premium Nixalite Spikes** to all kinds of surface materials. We offer hardware combinations for **masonry, wood, sheet metal, structural steel** and more. This is the **recommended method** of fastening bird spikes to the surface.

The bird spike base strip snaps into and out of the Mounting Clips installed on the surface, making it possible to **install, remove and reinstall** the bird spikes **quickly and repeatedly** without damaging the spikes, the hardware or the installation surface.

Nixalite's mounting hardware can be used to fasten the E-Spike Economy Bird Spikes. Mounting hardware is not supplied with the E-Spike and must be ordered separately. Contact Nixalite for more details on our mounting hardware applications.

For more information on Mounting Hardware go to www.nixalite.com/mountinghardware.aspx

Glue Clip (#MHGC)

Glue Clips - for Nixalite Bird Spikes

If the **recommended mounting hardware cannot be used**, an alternative could be the stainless steel **Glue Clips** with adhesive. Ordered separately, Glue Clips fasten spikes (with the proper adhesive) to no-drill surfaces such as glass, fragile stone, membrane roofing, structural steel, plated metals, EIFS wall panels and more.

Each **Glue Clip** has 2 pre-installed mounting clips. The mounting clips allow for spike installation, removal and reinstallation without damaging the spikes, the adhesive bond or the installation surface. **ONLY Nixalite offers this capability**. If you glue the spikes directly to the surface you can't remove or reinstall them without damaging one or the other. Use Glue Clips to fasten both Premium Nixalite and E-Spike bird spikes. Glue Clips are **Installation Accessories** and are ordered separately.

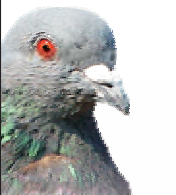

For more information on Installation Accessories go to www.nixalite.com/nixaliteaccessories.aspx

Premium Nixalite® Testimonials

Eisenhower Historic Site
Ken Kime
Gettysburg, PA USA

"The Nixalite (installed in 1955) is still working effectively. There are no pigeons roosting on the farm buildings, although we still have plenty of pigeons in the area. Nixalite is definitely an asset."

Zac Ryon
Home Owner
Denver, CO USA

"The Nixalite had immediately noticeable effects. It was like the movie "The Birds" around here and now they are nowhere to be seen. Thanks for a great product."

Yale Medical School
Norman Brody
New Haven, CT USA

"I've used this (Nixalite) for years - there is no substitute. (We) tried plastic products but they do not have the flexibility of stainless steel Nixalite!"

Norwest Pest Control
Robert Hamilton
Thunder Bay, ON Canada

"After some investigation into several (bird control) products, I found Nixalite of much higher quality. A necessity to withstand weather in Northern Ontario."

Design House
Orlando Martin
Bronx, NY USA

"My cornices have never looked this good. Nixalite is acceptable to landmark authorities which made using the product all that much easier."

Gator Pest Control
Peter Steinfort
Burnaby, BC Canada

"We are very pleased with the effectiveness and professional appearance of your product."

Miney Construction
Mike Miney
Springfield, PA USA

"Thank you! Your company and products make Miney Construction look great!"

Indian River Historical Soc.
Carolyn Short
Vero Beach, FL. USA

"Nixalite has rid us of our roosting pigeons while it has preserved the historical design of our building."
