

Introducing Studio Four Design

With services inspired by the four dimensions - *line* **Planning**, *plane* **Graphics**, *volume* **Architecture** and **Interiors**, *time* **Consulting** - our name tells the story of why we're here - for design.

We are a select group of individuals, diverse in many ways, but united in the task of raising the standard for design in the region to a new level. By combining the experience and services of a large firm with the attention to detail and value of a small firm, we have the energy, imagination, talent and resources to create thoughtful design solutions that will reflect your identity. The team at Studio Four Design is pleased to have the opportunity to work with you. **Imagine what you could do with us!**

***Design is more than just function...
consider it as your competitive edge.***

Studio Four Design, Inc. (S4D) opened for business in May, 2002 and is located in the heart of downtown Knoxville in the historic W. H. Belcher Building at **7B Market Square**. With over 60 years of combined experience, the founding partners - **Michael McGuiness, Stacy Cox, Michael Keller, Michael Cox, Greg Terry** and **Michelle Huntoon** - have created an experience-based design firm offering a variety of professional services in a collaborative studio environment. Functioning with a multi-disciplined staff, the firm strives to provide thoughtful design solutions with an emphasis on customer service.

The staff of **Studio Four Design** have first-hand involvement in many of the most significant building projects in the East Tennessee area. They include among others: Knoxville City-County Building, TVA Knoxville Headquarters, TVA Chattanooga Office Complex, Neyland Stadium East Skybox Expansion, Knoxville McGhee Tyson Airport Expansion, Renaissance Knoxville, CTI Building IV Addition and Alterations, Locust Street Garage, UNUMProvident Headquarters Expansion.

What really matters is our hands-on involvement in these and other projects. The principals of Studio Four Design actually did the work. Not as mere managers of the process, but the actual doers of the project. Yes we've managed, but more importantly we've done the real work required for these projects. We've been the planners, designers, detailers, specification writers, contract administrators and managers for these and a multitude of other projects.

We believe that processing information and communication both internally and externally is critical to the success of any project. Listening to our clients and hearing what they say is vital to successfully managing a project from conception to completion.
