

Scandia Sauna Kits

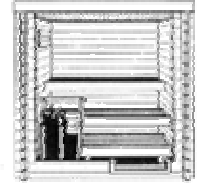

Personal Saunas - Commercial Saunas

Product Overview : Complete sauna kits for DIY and Contractors

Complete Sauna Kits for Contractors and DIY

Build your own sauna. This sauna type is ideal for new construction and remodeling projects. Scandia provides you with all sauna materials necessary for you to build the interior of your sauna. Please review our Specifications sheet for room framing and insulation recommendations.

Pre-Cut Sauna materials kit come complete with the following components:

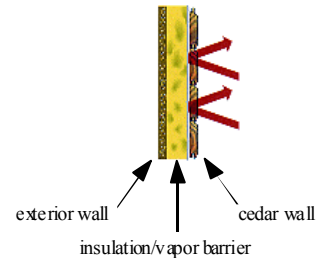

- Boards of Tongue & groove, kiln-dried, your choice of wood, for interior walls and ceiling- up to the recommended 7 foot height.
- Full upper and lower benches. Benches are 20" wide for most models. All benches are designed to be removable for easy cleaning and maintenance.
- 24" x 36" duckboard for sauna entrance
- Standard insulated door with 12x12" window
- Stainless steel sauna heater with sauna rocks (110, 240 or 208 volts) and controls.
- Heater guardrail.
- Sauna light
- Aluminum foil vapor barrier with kraft backing.
- Complete installation instructions.
- Standard Tongue and Groove cedar specifications: 1" x 4" or 1/2" x 4" T&G option.
- Standard accessories include: wooden bucket, ladle, thermometer,

Custom-cut saunas can be built in any possible configuration, while following basic design principles (consult Scandia's installation instructions booklet). Sizes start at 4"x3" and go up to 15" x 15". Scandia also offers a broad range of options that include glass doors, windows, floor options and bench extensions. Scandia supplies you with the best T&G available in the market today. Scandia's T&G is made of 1x4 or 1/2 x 4 inch, kiln-dried clear western cedar - specially prepared for sauna use. Cedar is the optimal wood for sauna construction providing a superior atmosphere for sauna bathers. Scandia sauna kits include full length (7 foot) cedar boards for vertical application. Many suppliers only offer random length cedar which is both difficult to apply and aesthetically unappealing. Scandia kits can be prepared specifically for horizontal applications upon request. Scandia sauna kits offer a practical design used in most commercial sauna installations, the kit provides everything needed to finish a pre-framed and insulated room.

Wood options:

TK Spruce, TK Cedar, Clear Spruce, Clear Cedar.

Bench Options

Benches extension (or "L" benches) maximizes the seating capacity in medium to large saunas. Scandia offers as an upgrade option lower and upper bench extensions. Standard custom-cut design places all benches on the widest side of the sauna for maximum seating capacity.

Exterior Options

Scandia custom-cut sauna kits come standard with **interior wood only**. Scandia understands that each installation and design approach is different; therefore, Scandia offers exterior cedar as an upgrade option.

Floor Options

Floor coverings with Scandia sauna kits are an optional item. In most cases the existing concrete or tile floors are appropriate flooring, however, additional duckboard wood or rubber tiling can be order from Scandia.

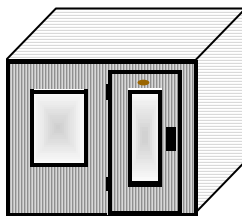

Door Options

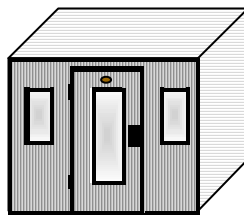

Full Glass Border Full Glass 12 x 12 Window 18 x 64 Clear Glass

Window Options

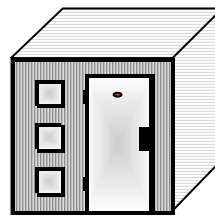

Windows are an important part of the sauna. Depending on the location, such as an outdoor sauna, bedroom sauna or home gym sauna, windows can make your sauna more enjoyable and aesthetically pleasing.

Sauna Heaters

The heart of the sauna

Scandia's stainless steel electric heaters are easy to install, safe, efficient and easy to clean.

The unobstructed free-flow circulation system design allows cool air to be drawn up through the base vents, making the heating elements more efficient to preheating and recovery phases.

Built-in heat deflectors make sure the heat is uniformly distributed throughout the sauna room.

Scandia offers three different models of electric heaters, specially designed to fit your sauna and carefully tested to provide you with the best sauna heat.

Scandia heaters come with the following components:

- ◇ Stainless steel heater
- ◇ Built in control with one hour timer, thermostat, pilot light, sauna rocks

Other options include:

- ◇ exterior control
- ◇ Programmable electronic digital control
- ◇ steam vaporizer function (Model 2000, 4KW and up)
- ◇ Floor mounted heaters for commercial saunas

Physical Dimensions:

Small heaters (2 –6 KW)
10" d x 23.5" h x 15" w

Medium/ large heaters (7.5 –10.5 KW)
12" d x 27.5" h x 18" w

- ◇ All heaters have a 5-year limited warranty.
- ◇ Model 2000 heaters (steam vaporizer) have a lifetime warranty
