MANUFACTURERS REPRESENTED IN VIRGINIA, WEST VIRGINIA, KENTUCKY, TENNESSEE, & OHIO

FMC TECHNOLOGIES (All areas)

Syntron Electromechanical Vibrating Feeders, Electromagnetic Vibrating Feeders, Vibrating Screens, Bin /Hopper /Chute Vibrators, Vibrating Joggers /Paper Joggers, Vibrating Packing Tables, Iris Flow Control Valves, Level Indicators, Spiral Elevators, Coilmount Conveyors, Flexmount Conveyors. The industry leader in vibrating feeders since 1937. Located in Homer City, Pennsylvania.

AMERICAN PULVERIZER COMPANY (Virginia, West Virginia, and Kentucky)

Originators and Manufacturers of Rolling Ring Crushers and Pulverizers with capacities from 15-3,000 tons per hour for Coal, Construction Aggregates, Wood, etc. Rolling Ring crushers, Single and Double Roll crushers, Reversible Hammermills, Horizontal Shaft Impactors (Formerly Torgerson and Humboldt Wedag), Wood Hogs, Clinker Grinders, Waste Shredders, Lab Mills, etc. American Pulverizer has served our industries since 1908 from St. Louis, Missouri.

MMD MINERAL SIZING (AMERICA), INC. (All areas)

Originators of the Mineral SIZER™. The MMD, the only true Sizer™, is capable of reducing coal, stone, and other minerals at rates of more than 10,000 tons per hour and feed sizes up to 10 feet, at minimal cost per ton. MMD has sales offices in the United States and parts inventory in Morgantown, West Virginia.

DEMAR CONVEYING SYSTEMS (All areas)

Radial Stackers, Portable Stackers, Linear Stackers, Elevating Stackers, Trippers, Dock Conveyors, Shiploaders, Plant Conveyors, Overland Conveyors, Belt Feeders, Reclaim Systems, Chain Feeders, Enclosed Galleries, Screening Stations, Crushing Stations. Hot-dipped galvanizing standard. Turnkey projects. An industry leader in this field for over 20 years. Located in Houston, Texas, with satellite Automation Office in Columbus, Ohio.

GENERAL INDUSTRIES, INC. (All areas)

Side-Kick™ unique Trash/Rock/Lump Separators (Kicks Lumps from Conveyor Belts). Replace Rotary Breakers & Scalping Screens. Reduce downtime due to large lumps, rocks, and trash dramatically. The Mars™ tramp metal removal system. The Side-Kick™ separator and Mars™ systems are manufactured in Marietta, Georgia.

WALKER MAGNETICS (Virginia, West Virginia, and Kentucky)

O.S. Walker Company manufactures Tramp metal and separator Magnets, Belt Magnetic Separators, Eddy Current Aluminum Separators, Material Recovery Systems, Dry Drum Separators. The world's largest manufacturer of lifting magnetics, with a complete line of separation equipment. Manufacturing in Worcester, Massachusetts and Stoney Creek, Ontario. We also offer Walker subsidiary, Walker LDJ Scientific, a world leader in the field of Fluxmeters, Magnetometers, Field Monitors, Custom Measuring Systems, Reference Magnets, and Control Interfaces, located in Worcester, Mass., and Troy, Michigan.

TECTRON ENGINEERING, INC. (All areas)

Tramp Metal Detectors for most industries, including coal, aggregates, wood, etc. Tectron also manufactures Walk-Through detectors and Hand-Operated Scanners. Tectron products are manufactured in Laguna Hills, California.

BSI INSTRUMENTS (Virginia and West Virginia)

Photon Density Gauges, Photon Point Level Switches, and Photon Continuous Level Gauges. No License required. Non-contacting, non-invasive, non-intrusive on-line measurement. BSI also manufactures Nuclear Gauges and Point & Continuous Level Switches. Other products include factory-rebuilt gauges, weigh scales, etc. Located in Aliquippa, Pennsylvania.

SIEMENS MILLTRONICS (Virginia and Tennessee)

Belt Scales, Weigh Feeders, Volumetric Control Gates, Non-Contacting Continuous and Point Level for solids and liquids, Transducers, Solids Flowmeters, Tilt Switches, Speed Switches, High Temperature Probes, Motion Failure Alarms and Transducers. Founded in 1954, Milltronics has earned a reputation for innovative, reliable products and strong technical support. Based in Peterborough, Ontario, and Arlington, Texas, Milltronics was purchased by Siemens in 2000.

MCR TECHNOLOGIES GROUP, INC. (All areas)

Cam-operated heavy duty Cable Pull Safety Switches, Belt Misalignment Switches, Shaft Monitors for rotation, reversal & zero speed, Optoelectronic Shaft Monitors for low speed & zero speed, Electronic Speed/Slip Monitors, Electronic Speed Monitors. Manufactured by Kiepe Elektrik of Düsseldorf, Germany.

KINERGY CORPORATION (Virginia)

Bin Activators, Railcar Unloaders, Pile Dischargers, Densifiers, Fluid-Bed Dryers, Coolers, Screens. Kinergy Corporation is located in Louisville, Kentucky.

DEISTER MACHINE COMPANY, INC. (All areas – except aggregates)

Heavy Duty Inclined and Horizontal Vibrating Screens, Vibrating Grizzly Feeders. Serving process industries since 1912. Located in Fort Wayne, Indiana.

WEG ELECTRIC MOTORS (All areas)

High-Efficiency, Quality Electric Motors. High-Torque, NEMA B & NEMA C, 1.15 Service Factor, Cast Iron Frames, All Copper Windings. Most Motors In-stock through 500 HP, 1800 RPM. NEMA and IEC Frames. Competitive Pricing. Weg motors are manufactured in Brazil and marketed from sales offices in Atlanta. Most sizes are stocked in six warehouses in the United States.

STICHT TACHOMETERS (All areas)

NIST Certified Hand Tachometers. Digital, Analog, Microprocessor Controlled Tachometers. Speed Indicators, Surface Speed Indicators, Eddy Current Tachometers, Chronometric Speed Indicators, Photo Tachometers. Strobe Digital and Analog Stroboscopes, and Vibrating Reed Tachometers.

MISCELLANEOUS

Air Knife and Polyurethane Belt Cleaners, Polyurethane wear products, Perforated Screen Plate, Polyurethane Screening Systems, and Woven Wire Cloth. If it's not listed, ask us. Take advantage of more than 35 years of D.L. Williams experience in bulk materials handling and processing.

March 11, 2003

Helping You Handle, Process, Measure, Monitor, and Control Bulk Materials Since 1989
