

Documents To Go[®] 5

PREMIUM EDITION

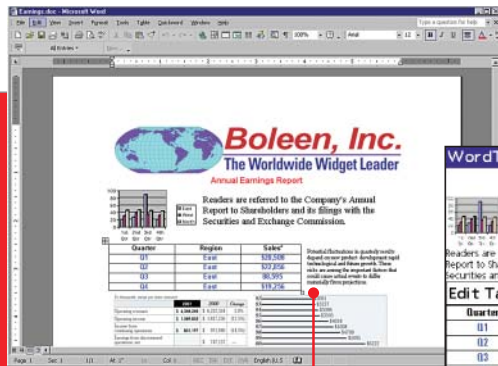

Word, Excel & PowerPoint[®] Files On Your Handheld.

Your Essential Office Applications in One Package

Leaving the office does not have to mean leaving your crucial files and work behind. Increase productivity on the road by using files right on your handheld. Or, when you're on that long flight, easily create new documents on your handheld and synchronize them back to your PC when you return to the office.

- **Work smarter** by having instant access to contracts, price lists, forecasts, PDF documents and much more.
- **Save time** by syncing, editing, and rehearsing your PowerPoint presentations, anytime, anywhere.
- **Be more productive** by creating and editing documents while on a plane or in a cab—it's even optimized for portable keyboards.
- **Instantly open graphics**, logos, even your favorite family photos on your handheld.
- **Take your e-mail anywhere**, even attached files.

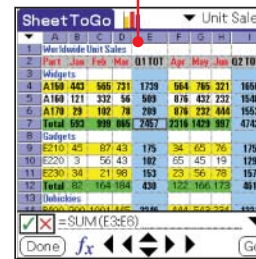

Only product to support embedded graphics

Only product to preserve original formatting

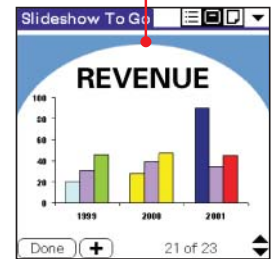

Word To Go™
Synchronize, edit and create word processing files. Perfect for when you need to modify that important contract on the go.

Quickly re-calculate and sort data

Sheet To Go®
Need to work on "what-if" scenarios with your forecasts? Use Sheet To Go to open, create and synchronize spreadsheet files.

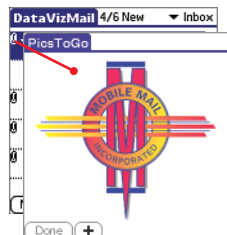

Choose from 3 different views

Slideshow To Go™
Synchronize, edit and rehearse your PowerPoint files and make that last minute change to your presentation on the plane or the taxi.

Plus

Use e-mail attachments, PDF files, pictures and charts

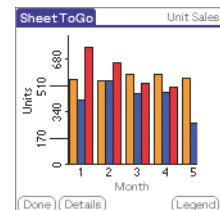

DataViz® Mail
Synchronize e-mails, view and even edit attachments

PDF To Go®
Open PDF files and manuals

Pics To Go™
Open and view graphics and pictures

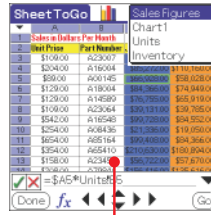

SmartChar™ Technology
View or create Excel charts

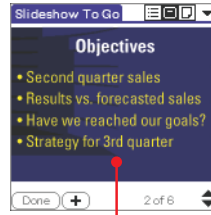

Seamless integration with Word, Excel and PowerPoint®

With Documents To Go, there's nothing new to learn. Work on word processing, spreadsheet and presentation files on your handheld the same way you would on your PC. It's that simple. Just push the HotSync™ button to quickly and easily synchronize your important desktop files to your handheld.

- Never lose formatting with DataViz's unique DocSync™ technology.
- No new interface to learn—the handheld applications look just like the ones on your desktop.
- Don't worry about having enough handheld memory. Files are optimized and reduced in size for the handheld and can easily be stored on expansion cards.

Preserve original formatting

Edit presentations on the fly

What's new in version 5!

The only product that supports:

- Embedded graphics in word processing files
- Editing and inserting of tables
- Syncing, editing and creating presentation files

Why it's the #1 selling Office solution for handhelds

- Includes DataViz's revolutionary DocSync™ technology to ensure that no document formatting is lost when syncing files between the handheld and desktop. It is the only product that can do this.
- It's the only Office solution to pass Palm's rigorous testing and achieve Palm Powered™ Compatible Solution certification.
- Documents To Go is the most used 3rd party software for Palm OS® (According to a survey presented at PalmSource 2002).
- Palm™, Inc. and Sony® chose Documents To Go as their preferred handheld Office solution.
- It's the only solution to provide all your Office applications in one box.

DataViz®
Compatibility. Instantly.
