

# Be Smarter, Fly Charter

**Express Air Charter** offers reliable affordable flight service for those that have discovered the true freedom of charter flights. By choosing to fly Express Air Charter, you avoid the hassles often associated with mainstream commercial air travel. What remains is *intelligent travel*.

**Eliminate air travel hassles** by flying from smaller regional airports, traveling with your luggage and sharing a cabin exclusively with your friends, family or co-workers. Our charter pilots fly 24 hours a day, every day of the year — making your schedule, *our* schedule.

**Time is money** and to the corporate executive the ability to discuss business matters enroute and in complete privacy, increases efficiency and leads to more successful meetings.

**Fly safely** with our FlightSafety trained and certified professional flight crew. Our aircraft are maintained to the highest standards set and governed in accordance with FAA approved inspection programs.

**Fly free of obstacles** with Express Air Charter. Bring the family pet. Land in a remote airport in Mexico or speak with our charter specialists about landing on private landing strips and government bases.

Think of Express Air Charter as your own personal airline.

We provide clients with comfort, quality and reliability primarily utilizing Beechcraft King Air turbo props, yet accommodating requests for twin engine aircraft as well as lightweight jets.
