

Models 430N to 2100N

Currently, the Nor'pro sound shields are available for the Navigator Series for models from 4.3 kW up to 21 kW. Made of high-grade powder coated lightweight aluminum these sound shields are the finest in the industry. The Nor'pro staff has taken many hours to design and test these units and to ensure the best available quality.

The superior design of these units also ensures easy assembly and teardown. Typically our sound shields can be completely disassembled in 5 minutes or less. Thanks to removable panels the everyday maintenance is quick and easy. Whether you are buying a new Nor'pro generator or you already own one, you should take a look at our sound shields. They will provide you with comfort, convenience and quiet operation you and everybody else will enjoy.

Enclosed 1440N with access panels off

2150N enclosure
