Use ieHIP as a fully functional PC

## complete

Multi-Format Display Output • IP Hub • Digital Video Recorder • Multimedia Player • Internet Appliance • Online Shopping Terminal • Security System* • Communication Center • Game Console • Digital Content Manager • Digital TV Receiver*
*Optional

## simple

WatchingTV, surfing the Web, and shopping online: now as easy as 1-2-3. The ieHIP Web Menu System provides a user-friendly way to navigate through all the available services. Just press a number of your choice on the wireless keyboard or remote control, and you can jump from one category to another.

## secure

The ieHIP supports the Smart Chip Card. With an embedded microchip, the card ensures secure online financial transactions. Once you make the purchase, the vendor deals only with your bank. The bank then credits you on your purchase, and the vendor gets paid. No more worry about stolen credit card numbers.
