

LINE-X Advantage

Extreme Protection

Bonding permanently to your truck bed, LINE-X molds around every contour, providing a weather and water tight seal, for extreme protection. This gives your bed a factory installed look, with no lost cargo space!

Dependable Reputation

Nobody knows trucks and those who use them better than LINE-X. With over a million bedliners sprayed, LINE-X has become standard equipment for a lot of folks and their hardworking trucks.

Adds Value

Whether you spray LINE-X on a well used or a new truck bed, LINE-X will provide years of reliable service. It's a great way to add resale value to your truck.

It's Quiet

It's shock absorbing qualities dampen sound and vibration. Doesn't rattle like some drop-in liners do.

Accessories Fit Great

Bed lids, camper shells, fiberglass tops, 5th wheel hitches, tie downs, utility boxes, etc. all fit great because LINE-X molds to every contour and does not interfere with accessory installation.

Quick Turnaround

Professionally applied, the surface dries in 3 to 5 seconds. With a pre-scheduled appointment, the total job including masking and spraying can all be done in one day. Your truck is ready immediately, but please wait a couple of days for rugged use.

Truck Bed Protection for Life!

National Lifetime Warranty

The World Leader in Truck Bed Protection

LINE-X is rated #1 in customer satisfaction because it outperforms other spray-on bedliners. LINE-X provides superior protection because our exclusive formula and state-of-the-art equipment create a bedliner with extraordinary toughness. Our bedliners are tested for strength and protection in the laboratory to assure truck owners the superior physical properties needed for heavy-duty truck use. Because of this, we are proud to offer the *only* Nationwide Limited Lifetime Warranty for spray-on bedliners. Our warranty is valid at any of our 400 dealers nationwide - you are guaranteed protection! If you want superior protection, you want LINE-X.

Protect Your Truck's Bed.

Actual rust & corrosion
caused by a drop-in liner.

Drop-in Disadvantages

A drop-in liner covers up your truck bed, trapping water and debris between the liner and the bed of your truck. As a result, a drop-in bedliner actually promotes condensation, water damage, abrasion, rust, and corrosion.
