

TrueTip™ Solutions

Kudos for TrueTip

"... handy for those of us who don't like the stylus we inherited with the PDA we purchased, or who lose things easily, or just want a variation on the way we use our mobiles."

Anywhereyougo.com – June 2002

"... I am amazed how great this invention is. When reading about this product on the Internet one may not grasp how easy it is actually having it at your finger tips.

Thanks again for an amazing invention..."

Leeor W. from Israel

"In the two weeks that I tested this stylus, I found that I was consistently grabbing it rather than fishing the stylus out of my Palm."

AOL PDA Community's Pocket Press - February 2002

What is TrueTip?

TrueTip styli are innovative and highly effective styli that transform either the human finger or a standard ballpoint pen into an inexpensive, comfortable, and convenient stylus. Our customers and the press love our products.

What are the Benefits?

- Our customers have told us that our products are increasing productivity by as much as 20%!
- Handheld computer users who need one hand free can wear the TrueTip finger stylus and regain use of their second hand thus increasing maneuverability and productivity.
- The TrueTip finger stylus conforms to almost any finger size, fits over gloves, and is nearly indestructible.
- Physically challenged people with Arthritis, Tendonitis, Neurological Disorders, and Carpal Tunnel will find less stress on their arm, wrist, and fingers and are able to be more productive longer.
- By being closer to the screen users find that they are more accurate with our styli.
- Travelers in confining seats no longer need to use their elbows to work on a handheld device.

Who are our clients?

TrueTip products can benefit any person who uses handheld technology and touch screens. TrueTip styli users vary widely from military, government, field force automation, healthcare, manufacturing, financial, industrial, aviation, point of sale (POS), real estate, transportation, utilities, warehouse management, physically challenged, construction, and a wide array of technologies. TrueTip styli can also be customized as a giveaway for clients, tradeshow, and OEM.
